Re: Moratorium for Providers' Funding Community ICF Bed Fees in FY22

Date: May 25, 2021

On May 20, 2021, the DDSN Commission authorized a moratorium for Providers funding Community ICF bed fees for one year. This was in response to several issues, to include a system-wide FY20 net funding deficit for Community ICFs and a legal question surrounding if DDSN or providers "owns" this annual liability. The moratorium will last for one year and end absent a Commission action.

DDSN will begin funding bed fees on the first day of FY22 (7/1/21) to simplify incorporating adjustments to the band payments, which has an estimated FY22 cost of \$1.5 million. It is also anticipated a Community ICF market rate will be developed during FY22 as DDSN moves to a market rate fee-for-service payment system.

Attachment A to this memo lists the 20 Community ICF Providers by their Case Management "code #" and their corresponding bed fees paid in FY20, which serves as an indicator of the expected financial relief in FY22.

DDSN point of contact for this issue is Contract Director Deborah Leopard. She can be reached at [DLeopard@ddsn.sc.gov](mailto:DLeopard@ddsn.sc.gov) and phone# 803/898-9674.

Thank you for your assistance and patience as DDSN re-examined this issue—Pat.
