RE: Residential Setting Availability Survey Deadline Reminder

Last Friday (5/6/22) you should have received a memo asking that you share information about the current and future availability of Residential Habilitation spaces (beds) by responding to a brief survey. I am writing again to ask that you share this information. Below you will find a link to the survey. If you will please take a few minutes to respond, it will be very much appreciated. The opportunity to share information by completing this survey will be available until **May 20, 2022**.
