SUBJECT: Live Healthy South Carolina Community Health Survey

Dear valued partner,

Live Healthy South Carolina — which is a statewide collaboration between the South Carolina (SC) Department of Health and Environmental Control (DHEC), the Alliance for a Healthier South Carolina, and others — is asking for your help in getting the word out about a short 10-minute community health survey. The purpose of the survey is to help identify the resources our communities need to help improve the health of all our residents, both physically and mentally.

This survey is voluntary. The survey will not be asking for participants' names, though it will ask questions such as an individual's county, age, race, gender, and occupation. Other questions will focus on the quality life in an individual's neighborhood and what healthcare needs are most important to them. Survey participants can choose to answer or not answer as many questions as they would like.

The SC Department of Disabilities and Special Needs (DDSN), as a member of the Alliance for a Healthier South Carolina, would appreciate your help in spreading the word about the survey by sharing with your network. The link is below.

The survey can be taken anytime. Learn more about Live Healthy SC at livehealthy.sc.gov.

Thank you for your support in completing this survey and sharing it with your contacts!
