

HASCI Environmental Modification

3. What are the limits?

Environmental modifications do not include adaptations or improvements to the home which are of general utility, and are not of direct medical or remedial benefit to the individual.

Examples of non-covered items: carpeting, roof repair, central air conditioning, awning additions, pools, decks, stairs, elevators, breezeways, carports, hot tubs/whirlpools, and washer/dryer connections.

Funding limits for Environmental Modifications vary according to the specific waiver. Your case manager will provide information to you regarding the limits of the waiver in which you are enrolled.
