

Application for a §1915(c) Home and Community-Based Services Waiver

PURPOSE OF THE HCBS WAIVER PROGRAM

The Medicaid Home and Community-Based Services (HCBS) waiver program is authorized in §1915(c) of the Social Security Act. The program permits a state to furnish an array of home and community-based services that assist Medicaid beneficiaries to live in the community and avoid institutionalization. The State has broad discretion to design its waiver program to address the needs of the waivers target population. Waiver services complement and/or supplement the services that are available to participants through the Medicaid State plan and other federal, state and local public programs as well as the supports that families and communities provide.

The Centers for Medicare & Medicaid Services (CMS) recognizes that the design and operational features of a waiver program will vary depending on the specific needs of the target population, the resources available to the state, service delivery system structure, state goals and objectives, and other factors. A State has the latitude to design a waiver program that is cost-effective and employs a variety of service delivery approaches, including participant direction of services.

PRA Disclosure Statement

The purpose of this application is for states to request a Medicaid Section 1915(c) home and community-based services (HCBS) waiver. Section 1915(c) of the Social Security Act authorizes the Secretary of Health and Human Services to waive certain specific Medicaid statutory requirements so that a state may voluntarily offer HCBS to state-specified target group(s) of Medicaid beneficiaries who need a level of institutional care that is provided under the Medicaid state plan. Under the Privacy Act of 1974 any personally identifying information obtained will be kept private to the extent of the law.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-0449 (Expires: December 31, 2023). The time required to complete this information collection is estimated to average 160 hours per response for a new waiver application and 75 hours per response for a renewal application, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

2. Brief Waiver Description

Brief Waiver Description. *In one page or less,* briefly describe the purpose of the waiver, including its goals, objectives, organizational structure (e.g., the roles of state, local and other entities), and service delivery methods.

South Carolina is seeking to renew the Medically Complex Children waiver (MCCW). The Medically Complex Children's waiver serves children who meet hospital level of care (LOC), and have chronic physical/health conditions expected to last longer than 12 months. The participants must also meet the State-defined medical eligibility criteria which evaluates the child's dependency on medications, medical supervision, hospitalizations, skilled nursing services, therapies and medical specialists. SCDHHS administers and operates the waiver. Contracted RN Care Coordinators are located throughout the entire state and are responsible for ensuring that participants/participant families are aware of their service options and can make informed choices as to which form of service delivery they prefer.

The goal of this waiver is to decrease hospitalizations, emergency room visits and/or enhance the quality of life for participants in a cost-effective manner.

The objective of the waiver is to provide ongoing continuity of care through the provision of a RN care coordinator who serves as a liaison between the waiver participant and all medical and community service providers. The services offered in this waiver include: Environmental Modification, Pediatric Medical Day Care, Respite, and RN Care Coordination.

Description of Phoenix and Electronic Visit Verification System (EVV)

Phoenix is South Carolina's automated web-based case management system. Components include:

- Demographic information
- Applications for waivers and status of applications
- All assessments conducted, including level of care (LOC) determination
- Person-Centered Service Plans
- Service referrals/authorizations for waiver services
- Documentation of other community supports
- Home assessment component
- Caregiver supports section indicating available supports
- Electronic Visit Verification System (EVV) summary information

Phoenix has a number of features included in the software to ensure compliance with federal requirements.

Examples include:

- Not allowing assessments to be conducted on any applicant that fails to meet intake criteria (e.g., does not live in state and has not indicated intent to move)
- Not allowing waiver enrollment to anyone without an appropriate level of care within 30 days of waiver enrollment
- Not allowing any waiver service to be authorized that is not indicated in the service plan
- Flagging and recording all cases where any federal regulations or state policies are not being followed appropriately.

The Electronic Visit Verification (EVV) system includes an Interactive Voice Response System (IVRS) and mobile application used by providers to record service provision. The EVV receives information from Phoenix, such as authorized services, schedule and frequency of authorizations, phone numbers of waiver participants and information about providers and provider workers. The EVV indicates the agency, worker and service being performed and for which waiver participant. This is compared with the service authorization to ensure that claims are made only for authorized services and only up to the authorized amount. The EVV system now also captures the tasks performed and observations by in-home workers. Providers use the Phoenix system to produce reports regarding the provision of service. In addition, claims are now submitted to MMIS for payment by Phoenix daily (except Mondays). This results in a quick turnaround in payments to providers because the claims are always submitted with the correct procedure code, amount, etc.

3. Components of the Waiver Request

The waiver application consists of the following components. Note: Item 3-E must be completed.

- A. Waiver Administration and Operation.** Appendix A specifies the administrative and operational structure of this waiver.
- B. Participant Access and Eligibility.** Appendix B specifies the target group(s) of individuals who are served in this waiver, the number of participants that the state expects to serve during each year that the waiver is in effect, applicable Medicaid eligibility and post-eligibility (if applicable) requirements, and procedures for the evaluation and reevaluation of level of care.
- C. Participant Services.** Appendix C specifies the home and community-based waiver services that are furnished through the waiver, including applicable limitations on such services.

D. Participant-Centered Service Planning and Delivery. Appendix D specifies the procedures and methods that the state uses to develop, implement and monitor the participant-centered service plan (of care).

E. Participant-Direction of Services. When the state provides for participant direction of services, Appendix E specifies the participant direction opportunities that are offered in the waiver and the supports that are available to participants who direct their services. (*Select one*):

Yes. This waiver provides participant direction opportunities. Appendix E is required.

No. This waiver does not provide participant direction opportunities. Appendix E is not required.

F. Participant Rights. Appendix F specifies how the state informs participants of their Medicaid Fair Hearing rights and other procedures to address participant grievances and complaints.

G. Participant Safeguards. Appendix G describes the safeguards that the state has established to assure the health and welfare of waiver participants in specified areas.

H. Quality Improvement Strategy. Appendix H contains the Quality Improvement Strategy for this waiver.

I. Financial Accountability. Appendix I describes the methods by which the state makes payments for waiver services, ensures the integrity of these payments, and complies with applicable federal requirements concerning payments and federal financial participation.

J. Cost-Neutrality Demonstration. Appendix J contains the state's demonstration that the waiver is cost-neutral.

4. Waiver(s) Requested

A. Comparability. The state requests a waiver of the requirements contained in §1902(a)(10)(B) of the Act in order to provide the services specified in Appendix C that are not otherwise available under the approved Medicaid state plan to individuals who: (a) require the level(s) of care specified in Item 1.F and (b) meet the target group criteria specified in Appendix B.

B. Income and Resources for the Medically Needy. Indicate whether the state requests a waiver of §1902(a)(10)(C)(i)(III) of the Act in order to use institutional income and resource rules for the medically needy (*select one*):

Not Applicable

No

Yes

C. Statewide. Indicate whether the state requests a waiver of the statewide requirements in §1902(a)(1) of the Act (*select one*):

No

Yes

If yes, specify the waiver of statewide that is requested (*check each that applies*):

Geographic Limitation. A waiver of statewide is requested in order to furnish services under this waiver only to individuals who reside in the following geographic areas or political subdivisions of the state. *Specify the areas to which this waiver applies and, as applicable, the phase-in schedule of the waiver by geographic area:*

Limited Implementation of Participant-Direction. A waiver of statewide is requested in order to make *participant-direction of services* as specified in Appendix E available only to individuals who reside in the following geographic areas or political subdivisions of the state. Participants who reside in these areas may elect to direct their services as provided by the state or receive comparable services through the service delivery methods that are in effect elsewhere in the state.

Specify the areas of the state affected by this waiver and, as applicable, the phase-in schedule of the waiver by geographic area:

5. Assurances

In accordance with 42 CFR §441.302, the state provides the following assurances to CMS:

- A. Health & Welfare:** The state assures that necessary safeguards have been taken to protect the health and welfare of persons receiving services under this waiver. These safeguards include:
1. As specified in **Appendix C**, adequate standards for all types of providers that provide services under this waiver;
 2. Assurance that the standards of any state licensure or certification requirements specified in **Appendix C** are met for services or for individuals furnishing services that are provided under the waiver. The state assures that these requirements are met on the date that the services are furnished; and,
 3. Assurance that all facilities subject to §1616(e) of the Act where home and community-based waiver services are provided comply with the applicable state standards for board and care facilities as specified in **Appendix C**.
- B. Financial Accountability.** The state assures financial accountability for funds expended for home and community-based services and maintains and makes available to the Department of Health and Human Services (including the Office of the Inspector General), the Comptroller General, or other designees, appropriate financial records documenting the cost of services provided under the waiver. Methods of financial accountability are specified in **Appendix I**.
- C. Evaluation of Need:** The state assures that it provides for an initial evaluation (and periodic reevaluations, at least annually) of the need for a level of care specified for this waiver, when there is a reasonable indication that an individual might need such services in the near future (one month or less) but for the receipt of home and community-based services under this waiver. The procedures for evaluation and reevaluation of level of care are specified in **Appendix B**.
- D. Choice of Alternatives:** The state assures that when an individual is determined to be likely to require the level of care specified for this waiver and is in a target group specified in **Appendix B**, the individual (or, legal representative, if applicable) is:
1. Informed of any feasible alternatives under the waiver; and,
 2. Given the choice of either institutional or home and community-based waiver services. **Appendix B** specifies the procedures that the state employs to ensure that individuals are informed of feasible alternatives under the waiver and given the choice of institutional or home and community-based waiver services.
- E. Average Per Capita Expenditures:** The state assures that, for any year that the waiver is in effect, the average per capita expenditures under the waiver will not exceed 100 percent of the average per capita expenditures that would have been made under the Medicaid state plan for the level(s) of care specified for this waiver had the waiver not been granted. Cost-neutrality is demonstrated in **Appendix J**.
- F. Actual Total Expenditures:** The state assures that the actual total expenditures for home and community-based waiver and other Medicaid services and its claim for FFP in expenditures for the services provided to individuals under the waiver will not, in any year of the waiver period, exceed 100 percent of the amount that would be incurred in the absence of the waiver by the state's Medicaid program for these individuals in the institutional setting(s) specified for this waiver.
- G. Institutionalization Absent Waiver:** The state assures that, absent the waiver, individuals served in the waiver would receive the appropriate type of Medicaid-funded institutional care for the level of care specified for this waiver.
- H. Reporting:** The state assures that annually it will provide CMS with information concerning the impact of the waiver on the type, amount and cost of services provided under the Medicaid state plan and on the health and welfare of waiver participants. This information will be consistent with a data collection plan designed by CMS.
- I. Habilitation Services.** The state assures that prevocational, educational, or supported employment services, or a combination of these services, if provided as habilitation services under the waiver are: (1) not otherwise available to the individual through a local educational agency under the Individuals with Disabilities Education Act (IDEA) or the Rehabilitation Act of 1973; and, (2) furnished as part of expanded habilitation services.

J. Services for Individuals with Chronic Mental Illness. The state assures that federal financial participation (FFP) will not be claimed in expenditures for waiver services including, but not limited to, day treatment or partial hospitalization, psychosocial rehabilitation services, and clinic services provided as home and community-based services to individuals with chronic mental illnesses if these individuals, in the absence of a waiver, would be placed in an IMD and are: (1) age 22 to 64; (2) age 65 and older and the state has not included the optional Medicaid benefit cited in 42 CFR §440.140; or (3) age 21 and under and the state has not included the optional Medicaid benefit cited in 42 CFR § 440.160.

6. Additional Requirements

Note: Item 6-I must be completed.

- A. Service Plan.** In accordance with 42 CFR §441.301(b)(1)(i), a participant-centered service plan (of care) is developed for each participant employing the procedures specified in **Appendix D**. All waiver services are furnished pursuant to the service plan. The service plan describes: (a) the waiver services that are furnished to the participant, their projected frequency and the type of provider that furnishes each service and (b) the other services (regardless of funding source, including state plan services) and informal supports that complement waiver services in meeting the needs of the participant. The service plan is subject to the approval of the Medicaid agency. Federal financial participation (FFP) is not claimed for waiver services furnished prior to the development of the service plan or for services that are not included in the service plan.
- B. Inpatients.** In accordance with 42 CFR §441.301(b)(1)(ii), waiver services are not furnished to individuals who are inpatients of a hospital, nursing facility or ICF/IID.
- C. Room and Board.** In accordance with 42 CFR §441.310(a)(2), FFP is not claimed for the cost of room and board except when: (a) provided as part of respite services in a facility approved by the state that is not a private residence or (b) claimed as a portion of the rent and food that may be reasonably attributed to an unrelated caregiver who resides in the same household as the participant, as provided in **Appendix I**.
- D. Access to Services.** The state does not limit or restrict participant access to waiver services except as provided in **Appendix C**.
- E. Free Choice of Provider.** In accordance with 42 CFR §431.151, a participant may select any willing and qualified provider to furnish waiver services included in the service plan unless the state has received approval to limit the number of providers under the provisions of §1915(b) or another provision of the Act.
- F. FFP Limitation.** In accordance with 42 CFR §433 Subpart D, FFP is not claimed for services when another third-party (e.g., another third party health insurer or other federal or state program) is legally liable and responsible for the provision and payment of the service. FFP also may not be claimed for services that are available without charge, or as free care to the community. Services will not be considered to be without charge, or free care, when (1) the provider establishes a fee schedule for each service available and (2) collects insurance information from all those served (Medicaid, and non-Medicaid), and bills other legally liable third party insurers. Alternatively, if a provider certifies that a particular legally liable third party insurer does not pay for the service(s), the provider may not generate further bills for that insurer for that annual period.
- G. Fair Hearing:** The state provides the opportunity to request a Fair Hearing under 42 CFR §431 Subpart E, to individuals: (a) who are not given the choice of home and community-based waiver services as an alternative to institutional level of care specified for this waiver; (b) who are denied the service(s) of their choice or the provider(s) of their choice; or (c) whose services are denied, suspended, reduced or terminated. **Appendix F** specifies the state's procedures to provide individuals the opportunity to request a Fair Hearing, including providing notice of action as required in 42 CFR §431.210.
- H. Quality Improvement.** The state operates a formal, comprehensive system to ensure that the waiver meets the assurances and other requirements contained in this application. Through an ongoing process of discovery, remediation and improvement, the state assures the health and welfare of participants by monitoring: (a) level of care determinations; (b) individual plans and services delivery; (c) provider qualifications; (d) participant health and welfare; (e) financial oversight and (f) administrative oversight of the waiver. The state further assures that all problems identified through its discovery processes are addressed in an appropriate and timely manner, consistent with the severity and nature of the problem. During the period that the waiver is in effect, the state will implement the Quality Improvement Strategy specified in **Appendix H**.
- I. Public Input.** Describe how the state secures public input into the development of the waiver:

SCDHHS Medical Care Advisory Committee Meeting (MCAC)- 5/11/21 and 8/10/21
 Notice to Tribal Governments- 8/16/21

8. Authorizing Signature

This document, together with Appendices A through J, constitutes the state's request for a waiver under §1915(c) of the Social Security Act. The state assures that all materials referenced in this waiver application (including standards, licensure and certification requirements) are *readily* available in print or electronic form upon request to CMS through the Medicaid agency or, if applicable, from the operating agency specified in Appendix A. Any proposed changes to the waiver will be submitted by the Medicaid agency to CMS in the form of waiver amendments.

Upon approval by CMS, the waiver application serves as the state's authority to provide home and community-based waiver services to the specified target groups. The state attests that it will abide by all provisions of the approved waiver and will continuously operate the waiver in accordance with the assurances specified in Section 5 and the additional requirements specified

in Section 6 of the request.

Attachment #2: Home and Community-Based Settings Waiver Transition Plan

Specify the state's process to bring this waiver into compliance with federal home and community-based (HCB) settings requirements at 42 CFR 441.301(c)(4)-(5), and associated CMS guidance.

Consult with CMS for instructions before completing this item. This field describes the status of a transition process at the point in time of submission. Relevant information in the planning phase will differ from information required to describe attainment of milestones.

To the extent that the state has submitted a statewide HCB settings transition plan to CMS, the description in this field may reference that statewide plan. The narrative in this field must include enough information to demonstrate that this waiver complies with federal HCB settings requirements, including the compliance and transition requirements at 42 CFR 441.301(c)(6), and that this submission is consistent with the portions of the statewide HCB settings transition plan that are germane to this waiver. Quote or summarize germane portions of the statewide HCB settings transition plan as required.

Note that Appendix C-5 HCB Settings describes settings that do not require transition; the settings listed there meet federal HCB setting requirements as of the date of submission. Do not duplicate that information here.

Update this field and Appendix C-5 when submitting a renewal or amendment to this waiver for other purposes. It is not necessary for the state to amend the waiver solely for the purpose of updating this field and Appendix C-5. At the end of the state's HCB settings transition process for this waiver, when all waiver settings meet federal HCB setting requirements, enter "Completed" in this field, and include in Section C-5 the information on all HCB settings in the waiver.

1. Introduction

The Center for Medicare and Medicaid Services (CMS) issued a final rule on Home and Community Based Services (HCBS) establishing certain requirements for home and community based services that are provided through Medicaid waivers, like the Medically Complex Children (MCC) Waiver. There are specific requirements for where home and community-based services are received which will be referred to as the “settings requirements.”

South Carolina Department of Health and Human Services
Medically Complex Children (MCC) Waiver Transition Plan

SCDHHS has final approval of its Statewide Transition Plan effective Feb. 4, 2020. It addresses all programs affected by the HCBS rule including those services and the setting that are part of this waiver. The full Statewide Transition Plan can be found online at www.scdhhs.gov/hcbs/site-page/hcbs-statewide-transition-plan. A summary of the plan as it pertains to this waiver can be found below.

-Assessment of System-wide policies

As part of the larger scope of the Statewide Transition Plan, SCDHHS reviewed the regulations, policies, standards, and other provider requirements that directly impact the home and community-based settings of the MCC waiver. They were read and reviewed to determine that the regulation, policy, etc. is not a barrier to the settings standards outlined in the HCBS Rule. The setting for South Carolina, as it relates to this waiver, is:

- Pediatric Medical Day Care

All policy and procedural updates related to this waiver have been completed to include HCBS requirements as noted in the South Carolina HCBS Statewide Transition Plan (Section 3). This includes HCBS requirements in the waiver procedural manual. These updates and changes have been reported via Milestone updates through the HCBS Statewide Transition Plan website portal to CMS. Ongoing Compliance of the System will be monitored per the updated policies and procedures as detailed in the Statewide Transition Plan.

-Assessment of Settings

The MCC waiver offers services to be provided in the home or in a community setting.

Children may receive MCC services in the home if the parent/legal guardian chooses this type of setting. The HCB regulation allows states to presume a waiver participant's home meets the requirements of HCB settings, therefore an assessment for compliance with the HCB settings requirements would not be necessary.

The Pediatric Medical Day Care is a medical day treatment program that provides health and social services needed to ensure the optimal functioning of children with medically complex needs, ages 4 weeks to 6 years old. Children may receive the MCC service of Pediatric Medical Day Care in a licensed child care center setting if the child is assessed for this service and is indicated in their person-centered service plan. There is only one setting in the state.

An initial site visit to this setting was conducted on January 21, 2016, by SCDHHS waiver staff. The site visit included a tour of the facility, discussion with facility staff, and observation. SCDHHS reviewed the initial assessment and documentation gathered at the time of the site visit to determine if the setting is in compliance. The documentation included the admission packet, transportation agreement, and the family and patient policies. It was noted that this Pediatric Medical Day Care serves children ages 4 weeks up through age 6 years. It is licensed as a Child Care Center per the licensing requirements required by the SC Department of Social Services (SCDSS).

After initial review, it is determined that this setting is compliant with the HCBS settings requirements. Systemically, its licensing laws and regulations are the same as any other child care center facility used by individuals not receiving Medicaid HCB services. Additionally, it meets the HCB settings requirements outlined in 42 CFR 441.301(c)(4) as appropriate for children in the age group served at this facility. Therefore, this environment meets the settings characteristics outlined in the HCBS Rule.

Ongoing compliance of settings is currently monitored through SCDHHS policies and procedures in addition to regulatory compliance through SC DSS. This process is detailed in the Statewide Transition Plan.

-Heightened Scrutiny

There is only one setting currently utilized in this waiver and it was determined to be compliant with HCBS requirements. Therefore no heightened scrutiny review is necessary.

South Carolina assures that the settings transition plan included in this waiver renewal will be subject to any provisions or requirements included in South Carolina’s approved Statewide Transition Plan. South Carolina will implement any required changes upon approval of the Statewide Transition Plan and will make conforming changes to its waiver when it submits the next amendment or renewal.

(Complete item A-2-a).

The waiver is operated by a separate agency of the state that is not a division/unit of the Medicaid agency.

Specify the division/unit name:

[Empty text box for division/unit name]

In accordance with 42 CFR §431.10, the Medicaid agency exercises administrative discretion in the administration and supervision of the waiver and issues policies, rules and regulations related to the waiver. The interagency agreement or memorandum of understanding that sets forth the authority and arrangements for this policy is available through the Medicaid agency to CMS upon request. (Complete item A-2-b).

2. Oversight of Performance.

a. Medicaid Director Oversight of Performance When the Waiver is Operated by another Division/Unit within the State Medicaid Agency. When the waiver is operated by another division/administration within the umbrella agency designated as the Single State Medicaid Agency. Specify (a) the functions performed by that division/administration (i.e., the Developmental Disabilities Administration within the Single State Medicaid Agency), (b) the document utilized to outline the roles and responsibilities related to waiver operation, and (c) the

methods that are employed by the designated State Medicaid Director (in some instances, the head of umbrella agency) in the oversight of these activities:

As indicated in section 1 of this appendix, the waiver is not operated by another division/unit within the State Medicaid agency. Thus this section does not need to be completed.

b. Medicaid Agency Oversight of Operating Agency Performance. When the waiver is not operated by the Medicaid agency, specify the functions that are expressly delegated through a memorandum of understanding (MOU) or other written document, and indicate the frequency of review and update for that document. Specify the methods that the Medicaid agency uses to ensure that the operating agency performs its assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify the frequency of Medicaid agency assessment of operating agency performance:

As indicated in section 1 of this appendix, the waiver is not operated by a separate agency of the State. Thus this section does not need to be completed.

Appendix A: Waiver Administration and Operation

3. Use of Contracted Entities. Specify whether contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable) (*select one*):

Yes. Contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or operating agency (if applicable).

Specify the types of contracted entities and briefly describe the functions that they perform. *Complete Items A-5 and A-6.:*

-Hospital LOC assessments for waiver applicants/participants are performed by a Care Services Organization(CSO).

-Pre-admission Screening (PAS) function is used to determine medical eligibility of the applicant/participant for the waiver program and is performed by a CSO.

No. Contracted entities do not perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable).

Appendix A: Waiver Administration and Operation

4. Role of Local/Regional Non-State Entities. Indicate whether local or regional non-state entities perform waiver operational and administrative functions and, if so, specify the type of entity (*Select One*):

Not applicable

Applicable - Local/regional non-state agencies perform waiver operational and administrative functions.

Check each that applies:

Local/Regional non-state public agencies perform waiver operational and administrative functions at the local or regional level. There is an **interagency agreement or memorandum of understanding** between the State and these agencies that sets forth responsibilities and performance requirements for these agencies that is available through the Medicaid agency.

Specify the nature of these agencies and complete items A-5 and A-6:

Local/Regional non-governmental non-state entities conduct waiver operational and administrative functions

at the local or regional level. There is a contract between the Medicaid agency and/or the operating agency (when authorized by the Medicaid agency) and each local/regional non-state entity that sets forth the responsibilities and performance requirements of the local/regional entity. The **contract(s)** under which private entities conduct waiver operational functions are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Specify the nature of these entities and complete items A-5 and A-6:

Appendix A: Waiver Administration and Operation

5. Responsibility for Assessment of Performance of Contracted and/or Local/Regional Non-State Entities. Specify the state agency or agencies responsible for assessing the performance of contracted and/or local/regional non-state entities in conducting waiver operational and administrative functions:

The SCDHHS Phoenix Case Management system (Phoenix System) is used by SCDHHS staff to review the LOC assessments performed by the CSO to ensure the LOC criteria is met.

The Phoenix database system is an automated electronic system used to perform a number of critical functions. SCDHHS uses the Phoenix System and has oversight of all intake, assessment, authorizations of services and care planning activities. The Phoenix database system also manages provider lists, quality indicators, and edits to ensure compliance with federal regulations and state policies.

Appendix A: Waiver Administration and Operation

6. Assessment Methods and Frequency. Describe the methods that are used to assess the performance of contracted and/or local/regional non-state entities to ensure that they perform assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify how frequently the performance of contracted and/or local/regional non-state entities is assessed:

SCDHHS will utilize: 1) Quarterly a representative sample of Level of Care (LOC) determinations are reviewed to ensure the LOC criteria is uniformly applied; 2) Annually, quality assurance focus reviews on the CMS quality assurance indicators and performance measures.

Appendix A: Waiver Administration and Operation

7. Distribution of Waiver Operational and Administrative Functions. In the following table, specify the entity or entities that have responsibility for conducting each of the waiver operational and administrative functions listed (*check each that applies*):

In accordance with 42 CFR §431.10, when the Medicaid agency does not directly conduct a function, it supervises the performance of the function and establishes and/or approves policies that affect the function. All functions not performed directly by the Medicaid agency must be delegated in writing and monitored by the Medicaid Agency. *Note: More than one box may be checked per item. Ensure that Medicaid is checked when the Single State Medicaid Agency (1) conducts the function directly; (2) supervises the delegated function; and/or (3) establishes and/or approves policies related to the function.*

Quality Improvement: Administrative Authority of the Single State Medicaid Agency

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Administrative Authority

The Medicaid Agency retains ultimate administrative authority and responsibility for the operation of the waiver program by exercising oversight of the performance of waiver functions by other state and local/regional non-state agencies (if appropriate) and contracted entities.

i. Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Performance measures for administrative authority should not duplicate measures found in other appendices of the waiver application. As necessary and applicable, performance measures should focus on:

- Uniformity of development/execution of provider agreements throughout all geographic areas covered by the waiver
- Equitable distribution of waiver openings in all geographic areas covered by the waiver
- Compliance with HCB settings requirements and other new regulatory components (for waiver actions submitted on or after March 17, 2014)

Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of annual case management activity quality assurance reviews completed required by policy completed. N: Number of case management activity quality assurance reviews completed D: Total number of case management quality assurance reviews required by SMA policy.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

The State (SCDHHS) retains full operational and administrative authority of this waiver. SCDHHS contracts with providers to perform waiver functions. Providers are responsible for implementing corrective actions as instructed by SCDHHS. SCDHHS uses the Phoenix Case Management System to track multiple participant and provider activities including enrollments, LOC Assessments, service plans, monthly and quarterly contacts and complaints.

B-1: Specification of the Waiver Target Group(s)

a. Target Group(s). Under the waiver of Section 1902(a)(10)(B) of the Act, the state limits waiver services to one or more groups or subgroups of individuals. Please see the instruction manual for specifics regarding age limits. *In accordance with 42 CFR §441.301(b)(6), select one or more waiver target groups, check each of the subgroups in the selected target group(s) that may receive services under the waiver, and specify the minimum and maximum (if any) age of individuals served in each subgroup:*

Target Group	Included	Target SubGroup	Minimum Age	Maximum Age	
				Maximum Age Limit	No Maximum Age Limit
Aged or Disabled, or Both - General					
		Aged		<input type="checkbox"/>	<input type="checkbox"/>

		Mental Illness		<input type="checkbox"/>	<input type="checkbox"/>
		Serious Emotional Disturbance		<input type="checkbox"/>	<input type="checkbox"/>

b. Additional Criteria. The state further specifies its target group(s) as follows:

Children with a serious illness or condition expected to last at least 12 months. The waiver participants must meet the state defined medical criteria which identify the child as being dependent upon the evaluation of medications, hospitalizations, skilled nursing services, ancillary services, and specialists.

c. Transition of Individuals Affected by Maximum Age Limitation. When there is a maximum age limit that applies to individuals who may be served in the waiver, describe the transition planning procedures that are undertaken on behalf of participants affected by the age limit (*select one*):

Not applicable. There is no maximum age limit

The following transition planning procedures are employed for participants who will reach the waiver's maximum age limit.

Specify:

The State's Transition planning procedures will begin three months prior to age 21 to ensure transition to appropriate primary care and other home and community based waivers if eligible. Parents/responsible party will be provided information about other services, supports, and appropriate referrals available (i.e., state plan services and other waiver alternatives). The RN Care Coordinator is responsible for coordinating the transition to other services.

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (1 of 2)

a. Individual Cost Limit. The following individual cost limit applies when determining whether to deny home and community-based services or entrance to the waiver to an otherwise eligible individual (*select one*). Please note that a state may have only ONE individual cost limit for the purposes of determining eligibility for the waiver:

No Cost Limit. The state does not apply an individual cost limit. *Do not complete Item B-2-b or item B-2-c.*

Cost Limit in Excess of Institutional Costs. The state refuses entrance to the waiver to any otherwise eligible individual when the state reasonably expects that the cost of the home and community-based services furnished to that individual would exceed the cost of a level of care specified for the waiver up to an amount specified by the state. *Complete Items B-2-b and B-2-c.*

The limit specified by the state is (*select one*)

A level higher than 100% of the institutional average.

Specify the percentage:

Other

Specify:

Institutional Cost Limit. Pursuant to 42 CFR 441.301(a)(3), the state refuses entrance to the waiver to any otherwise eligible individual when the state reasonably expects that the cost of the home and community-based services furnished to that individual would exceed 100% of the cost of the level of care specified for the waiver. *Complete Items B-2-b and B-2-c.*

Cost Limit Lower Than Institutional Costs. The state refuses entrance to the waiver to any otherwise qualified individual when the state reasonably expects that the cost of home and community-based services furnished to that individual would exceed the following amount specified by the state that is less than the cost of a level of care specified for the waiver.

Specify the basis of the limit, including evidence that the limit is sufficient to assure the health and welfare of waiver participants. Complete Items B-2-b and B-2-c.

The cost limit specified by the state is (*select one*):

b. Method of Implementation of the Individual Cost Limit. When an individual cost limit is specified in Item B-2-a, specify the procedures that are followed to determine in advance of waiver entrance that the individual's health and welfare can be assured within the cost limit:

c. Participant Safeguards. When the state specifies an individual cost limit in Item B-2-a and there is a change in the participant's condition or circumstances post-entrance to the waiver that requires the provision of services in an amount that exceeds the cost limit in order to assure the participant's health and welfare, the state has established the following safeguards to avoid an adverse impact on the participant *(check each that applies)*:

The participant is referred to another waiver that can accommodate the individual's needs.

Additional services in excess of the individual cost limit may be authorized.

Specify the procedures for authorizing additional services, including the amount that may be authorized:

Other safeguard(s)

Specify:

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (1 of 4)

a. Unduplicated Number of Participants. The following table specifies the maximum number of unduplicated participants who are served in each year that the waiver is in effect. The state will submit a waiver amendment to CMS to modify the number of participants specified for any year(s), including when a modification is necessary due to legislative appropriation or another reason. The number of unduplicated participants specified in this table is basis for the cost-neutrality calculations in Appendix J:

Table: B-3-a

Waiver Year	Unduplicated Number of Participants
Year 1	2056
Year 2	2261
Year 3	2488
Year 4	2736
Year 5	3010

b. Limitation on the Number of Participants Served at Any Point in Time. Consistent with the unduplicated number of participants specified in Item B-3-a, the state may limit to a lesser number the number of participants who will be served at any point in time during a waiver year. Indicate whether the state limits the number of participants in this way: *(select one)* :

The state does not limit the number of participants that it serves at any point in time during a waiver year.

The state limits the number of participants that it serves at any point in time during a waiver year.

The limit that applies to each year of the waiver period is specified in the following table:

Table: B-3-b

Waiver Year	Maximum Number of Participants Served At Any Point During the Year
Year 1	2056
Year 2	2261
Year 3	2488
Year 4	2736
Year 5	3010

B-3: Number of Individuals Served (2 of 4)

c. Reserved Waiver Capacity. The state may reserve a portion of the participant capacity of the waiver for specified purposes (e.g., provide for the community transition of institutionalized persons or furnish waiver services to individuals experiencing a crisis) subject to CMS review and approval. The State *(select one)*:

Not applicable. The state does not reserve capacity.

The state reserves capacity for the following purpose(s).

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (3 of 4)

d. Scheduled Phase-In or Phase-Out. Within a waiver year, the state may make the number of participants who are served subject to a phase-in or phase-out schedule (*select one*):

The waiver is not subject to a phase-in or a phase-out schedule.

The waiver is subject to a phase-in or phase-out schedule that is included in Attachment #1 to Appendix B-3. This schedule constitutes an intra-year limitation on the number of participants who are served in the waiver.

e. Allocation of Waiver Capacity.

Select one:

Waiver capacity is allocated/managed on a statewide basis.

Waiver capacity is allocated to local/regional non-state entities.

Specify: (a) the entities to which waiver capacity is allocated; (b) the methodology that is used to allocate capacity and how often the methodology is reevaluated; and, (c) policies for the reallocation of unused capacity among local/regional non-state entities:

f. Selection of Entrants to the Waiver. Specify the policies that apply to the selection of individuals for entrance to the waiver:

Waiver applicants will be admitted to the waiver after they meet all criteria for enrollment. If there are not sufficient waiver slots, waiver participants will be admitted on a first come first serve basis, based upon date of the application.

In accordance with 42 CFR §441.303(e), Appendix B-5 must be completed when the state furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217, as indicated in Appendix B-4. Post-eligibility applies only to the 42 CFR §435.217 group.

a. Use of Spousal Impoverishment Rules. Indicate whether spousal impoverishment rules are used to determine eligibility for the special home and community-based waiver group under 42 CFR §435.217:

Note: For the period beginning January 1, 2014 and extending through September 30, 2019 (or other date as required by law), the following instructions are mandatory. The following box should be checked for all waivers that furnish waiver services to the 42 CFR §435.217 group effective at any point during this time period.

Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group. In the case of a participant with a community spouse, the state uses *spousal post-eligibility rules under §1924 of the Act.*

Complete Items B-5-e (if the selection for B-4-a-i is SSI State or §1634) or B-5-f (if the selection for B-4-a-i is 209b State) and Item B-5-g unless the state indicates that it also uses spousal post-eligibility rules for the time periods before January 1, 2014 or after September 30, 2019 (or other date as required by law).

Note: The following selections apply for the time periods before January 1, 2014 or after September 30, 2019 (or other date as required by law) (select one).

Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group.

B-5: Post-Eligibility Treatment of Income (4 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

d. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules

The state uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care if it determines the individual's eligibility under §1924 of the Act. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the state Medicaid Plan. The state must also protect amounts for incurred expenses for medical or remedial care (as specified below).

i. Allowance for the personal needs of the waiver participant

(select one):

SSI standard

Optional state supplement standard

Medically needy income standard

The special income level for institutionalized persons

A percentage of the Federal poverty level

Specify percentage:

The following dollar amount:

Specify dollar amount: If this amount changes, this item will be revised

The following formula is used to determine the needs allowance:

Specify formula:

Other

Specify:

ii. If the allowance for the personal needs of a waiver participant with a community spouse is different from the amount used for the individual's maintenance allowance under 42 CFR §435.726 or 42 CFR §435.735, explain why this amount is reasonable to meet the individual's maintenance needs in the community.

Select one:

Allowance is the same

Allowance is different.

Explanation of difference:

iii. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 CFR §435.726:

- a. Health insurance premiums, deductibles and co-insurance charges
- b. Necessary medical or remedial care expenses recognized under state law but not covered under the state's Medicaid plan, subject to reasonable limits that the state may establish on the amounts of these expenses.

Select one:

Not Applicable (see instructions)*Note: If the state protects the maximum amount for the waiver participant, not applicable must be selected.*

The state does not establish reasonable limits.

The state uses the same reasonable limits as are used for regular (non-spousal) post-eligibility.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (5 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

e. Regular Post-Eligibility Treatment of Income: §1634 State - 2014 through 2018.

B-5: Post-Eligibility Treatment of Income (7 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

g. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules - 2014 through 2018.

The state uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the state Medicaid Plan. The state must also protect amounts for incurred expenses for medical or remedial care (as specified below).

Answers provided in Appendix B-5-a indicate the selections in B-5-d also apply to B-5-g.

Appendix B: Participant Access and Eligibility

B-6: Evaluation/Reevaluation of Level of Care

As specified in 42 CFR §441.302(c), the state provides for an evaluation (and periodic reevaluations) of the need for the level(s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.

a. Reasonable Indication of Need for Services. In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, and (b) the provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the state's policies concerning the reasonable indication of the need for services:

i. Minimum number of services.

The minimum number of waiver services (one or more) that an individual must require in order to be determined to need waiver services is:

ii. Frequency of services. The state requires (select one):

The provision of waiver services at least monthly

Monthly monitoring of the individual when services are furnished on a less than monthly basis

If the state also requires a minimum frequency for the provision of waiver services other than monthly (e.g., quarterly), specify the frequency:

b. Responsibility for Performing Evaluations and Reevaluations. Level of care evaluations and reevaluations are performed (*select one*):

Directly by the Medicaid agency

By the operating agency specified in Appendix A

By a government agency under contract with the Medicaid agency.

Specify the entity:

Other

Specify:

Initial LOC assessments are performed by licensed, Registered Nurses as part of the pre-admission screening function. Re-evaluations are performed by the RN care coordinators.

c. Qualifications of Individuals Performing Initial Evaluation: Per 42 CFR §441.303(c)(1), specify the educational/professional qualifications of individuals who perform the initial evaluation of level of care for waiver applicants:

Registered Nurses (RN) licensed by the State of South Carolina.

d. Level of Care Criteria. Fully specify the level of care criteria that are used to evaluate and reevaluate whether an individual needs services through the waiver and that serve as the basis of the state's level of care instrument/tool. Specify the level of care instrument/tool that is employed. State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the operating agency (if applicable), including the instrument/tool utilized.

The MCC Waiver hospital level of care criteria is utilized in the waiver. The MCC hospital level of care requires an evaluation of an applicant/participant's dependency on medications; hospitalizations; emergency room visits; skilled nursing level needs; physical, occupational, and speech therapy needs; and specialty care physician needs. Exceptions to the level of care criteria may be granted by the SCDHHS Medical Director if the applicant/participant is determined to be at risk for hospitalization, but does not meet the other level of care criteria. A standardized assessment tool ("Medical Eligibility Assessment Tool") is utilized to determine the complexity of the applicant/participant's medical condition.

- e. Level of Care Instrument(s).** Per 42 CFR §441.303(c)(2), indicate whether the instrument/tool used to evaluate level of care for the waiver differs from the instrument/tool used to evaluate institutional level of care (*select one*):

The same instrument is used in determining the level of care for the waiver and for institutional care under the state Plan.

A different instrument is used to determine the level of care for the waiver than for institutional care under the state plan.

Describe how and why this instrument differs from the form used to evaluate institutional level of care and explain how the outcome of the determination is reliable, valid, and fully comparable.

- f. Process for Level of Care Evaluation/Reevaluation:** Per 42 CFR §441.303(c)(1), describe the process for evaluating waiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the evaluation process, describe the differences:

The same processes and instrument are used to perform evaluations and re-evaluations.

- g. Reevaluation Schedule.** Per 42 CFR §441.303(c)(4), reevaluations of the level of care required by a participant are conducted no less frequently than annually according to the following schedule (*select one*):

Every three months

Every six months

Every twelve months

Other schedule

Specify the other schedule:

At least every 364 days from the previous level of care date.

- h. Qualifications of Individuals Who Perform Reevaluations.** Specify the qualifications of individuals who perform reevaluations (*select one*):

The qualifications of individuals who perform reevaluations are the same as individuals who perform initial evaluations.

The qualifications are different.

Specify the qualifications:

- i. Procedures to Ensure Timely Reevaluations.** Per 42 CFR §441.303(c)(4), specify the procedures that the state employs to ensure timely reevaluations of level of care (*specify*):

The state currently operates an electronic case management system, Phoenix, that tracks the dates of all forms utilized in the maintenance of waiver operations. This includes LOC determination dates, and reports for upcoming and outstanding LOC. These reports are monitored by SCDHHS and RN Care Coordination staff.

- j. Maintenance of Evaluation/Reevaluation Records.** Per 42 CFR §441.303(c)(3), the state assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3

years as required in 45 CFR §92.42. Specify the location(s) where records of evaluations and reevaluations of level of care are maintained:

Electronic records are in the Phoenix Database System at SCDHHS.

Appendix B: Evaluation/Reevaluation of Level of Care

Quality Improvement: Level of Care

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Level of Care Assurance/Sub-assurances

The state demonstrates that it implements the processes and instrument(s) specified in its approved waiver for evaluating/reevaluating an applicant's/waiver participant's level of care consistent with level of care provided in a hospital, NF or ICF/IID.

i. Sub-Assurances:

- a. Sub-assurance: An evaluation for LOC is provided to all applicants for whom there is reasonable indication that services may be needed in the future.**

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

The number of new waiver applicants who met LOC prior to waiver enrollment. N = the number of new waiver applicants who met LOC prior to waiver enrollment; D = the total number of new applicants who enrolled.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

SCDHHS will review the LOC assessment. The LOC assessment is part of the Phoenix Database System which ensures that only the approved instrument is used for all LOC assessments and re-evaluations. Phoenix will not allow entry into the waiver without a LOC assessment completed within the prior 30 days.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

During the enrollment process, SCDHHS will identify untimely LOC assessments. Based on the findings discovered, the provider is required to update the LOC prior to participant enrollment. If corrections need to be made, the SCDHHS will offer technical assistance/training. The QA Audit Tool is used to document these findings.

Appendix B: Participant Access and Eligibility

B-7: Freedom of Choice

Freedom of Choice. As provided in 42 CFR §441.302(d), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:

- i. informed of any feasible alternatives under the waiver; and*
- ii. given the choice of either institutional or home and community-based services.*

a. Procedures. Specify the state's procedures for informing eligible individuals (or their legal representatives) of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services. Identify the form(s) that are employed to document freedom of choice. The form or forms are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The RN Care Coordinator discusses long term care options with the waiver applicant/Responsible Party (RP). Prior to waiver enrollment, a Freedom of Choice (FOC) form is secured from the RP to ensure he/she is involved in planning the waiver applicant's long term care, to document the choice of institutional or home and community-based services. This choice will remain in effect until such time as the RP changes his/her mind.

b. Maintenance of Forms. Per 45 CFR §92.42, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.

The waiver participant Freedom of Choice (FOC) form is maintained indefinitely in the Phoenix Database System.

Appendix B: Participant Access and Eligibility

B-8: Access to Services by Limited English Proficiency Persons

Access to Services by Limited English Proficient Persons. Specify the methods that the state uses to provide meaningful access to the waiver by Limited English Proficient persons in accordance with the Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003):

SCDHHS is in compliance with Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons by using Global Interpreting Network. for all interpretation and translation services. Global Interpreting Network will provide over-the-phone interpretation, face-to-face interpretation, document translation and face-to-face sign language interpretation. RN Care Coordinators have access to the appropriate Global Interpreting Network codes available to them for use on monthly phone calls and during quarterly home visits.

c. Delivery of Case Management Services. Specify the entity or entities that conduct case management functions on behalf of waiver participants:

Appendix C: Participant Services

C-2: General Service Specifications (1 of 3)

a. Criminal History and/or Background Investigations. Specify the state's policies concerning the conduct of criminal history and/or background investigations of individuals who provide waiver services (*select one*):

No. Criminal history and/or background investigations are not required.

Yes. Criminal history and/or background investigations are required.

Specify: (a) the types of positions (e.g., personal assistants, attendants) for which such investigations must be conducted; (b) the scope of such investigations (e.g., state, national); and, (c) the process for ensuring that mandatory investigations have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid or the operating agency (if applicable):

SCDHHS provider contracts require credential and background checks be verified for the following provider types: RN care coordination, pediatric medical day care, and respite. These background checks are State level investigations conducted by the South Carolina State Law Enforcement Division for each provider's direct care staff.

Providers are required to undergo criminal history and background checks prior to becoming an enrolled Medicaid provider.

Providers must check the Office of Inspector General (OIG) exclusions list for all staff. A copy of search results must be maintained in each employee's personnel file.

b. Abuse Registry Screening. Specify whether the state requires the screening of individuals who provide waiver services through a state-maintained abuse registry (select one):

No. The state does not conduct abuse registry screening.

Yes. The state maintains an abuse registry and requires the screening of individuals through this registry.

Specify: (a) the entity (entities) responsible for maintaining the abuse registry; (b) the types of positions for which abuse registry screenings must be conducted; and, (c) the process for ensuring that mandatory screenings have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

The South Carolina Department of Social Services (SCDSS), as mandated by the South Carolina Code of Laws, maintains a registry which captures persons who have been convicted of abusing children under the age of 18. Abuse registry screenings must be conducted by agency providers on all direct care staff who provide RN Care Coordination and Pediatric medical day care services prior to becoming an enrolled Medicaid provider.

d. Provision of Personal Care or Similar Services by Legally Responsible Individuals. A legally responsible individual is any person who has a duty under state law to care for another person and typically includes: (a) the parent (biological or adoptive) of a minor child or the guardian of a minor child who must provide care to the child or (b) a spouse of a waiver participant. Except at the option of the State and under extraordinary circumstances specified by the state, payment may not be made to a legally responsible individual for the provision of personal care or similar services that the legally responsible individual would ordinarily perform or be responsible to perform on behalf of a waiver participant. *Select one:*

No. The state does not make payment to legally responsible individuals for furnishing personal care or similar services.

Yes. The state makes payment to legally responsible individuals for furnishing personal care or similar services

when they are qualified to provide the services.

Specify: (a) the legally responsible individuals who may be paid to furnish such services and the services they may provide; (b) state policies that specify the circumstances when payment may be authorized for the provision of *extraordinary care* by a legally responsible individual and how the state ensures that the provision of services by a legally responsible individual is in the best interest of the participant; and, (c) the controls that are employed to ensure that payments are made only for services rendered. *Also, specify in Appendix C-1/C-3 the personal care or similar services for which payment may be made to legally responsible individuals under the state policies specified here.*

Self-directed**Agency-operated**

- e. Other State Policies Concerning Payment for Waiver Services Furnished by Relatives/Legal Guardians.** Specify state policies concerning making payment to relatives/legal guardians for the provision of waiver services over and above the policies addressed in Item C-2-d. *Select one:*

The state does not make payment to relatives/legal guardians for furnishing waiver services.

The state makes payment to relatives/legal guardians under specific circumstances and only when the relative/guardian is qualified to furnish services.

Specify the specific circumstances under which payment is made, the types of relatives/legal guardians to whom payment may be made, and the services for which payment may be made. Specify the controls that are employed to ensure that payments are made only for services rendered. *Also, specify in Appendix C-1/C-3 each waiver service for which payment may be made to relatives/legal guardians.*

Relatives/legal guardians may be paid for providing waiver services whenever the relative/legal guardian is qualified to provide services as specified in Appendix C-1/C-3.

Specify the controls that are employed to ensure that payments are made only for services rendered.

Other policy.

Specify:

Reimbursement for services may be made to certain family members who meet South Carolina Medicaid provider qualifications. The following family members may not be reimbursed:

- 1) the spouse of a Medicaid participant;
- 2) a parent of a minor Medicaid participant;
- 3) a step-parent of a minor Medicaid participant;
- 4) a foster parent of a minor Medicaid participant; and
- 5) a legally liable guardian of a Medicaid participant.

Should there be any questions as to whether a paid caregiver falls in any of the categories listed above, SCDHHS legal counsel will make a determination. South Carolina monitors the provision of services through a phone monitoring system (EVV) linked directly to the service authorization in place for anyone receiving services to verify that payments are only made for services that are rendered to the participant.

f. Open Enrollment of Providers. Specify the processes that are employed to assure that all willing and qualified providers have the opportunity to enroll as waiver service providers as provided in 42 CFR §431.51:

Potential providers are given the opportunity to enroll/contract with the SCDHHS. Potential providers are made aware of the requirements for enrollment through:

- 1) The agency's website and
- 2) contacting the Medicaid agency directly.

Potential providers are given a packet of information that is used in the enrollment process. Some services specified in this waiver require pre-contractual review and signed contract for enrollment as a provider.

Quality Improvement: Qualified Providers

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Qualified Providers

The state demonstrates that it has designed and implemented an adequate system for assuring that all waiver services are provided by qualified providers.

i. Sub-Assurances:

- a. Sub-Assurance:** *The State verifies that providers initially and continually meet required licensure and/or certification standards and adhere to other standards prior to their furnishing waiver services.*

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of new enrolled/contracted state providers who meet licensure, standards, and/or qualifications prior to the delivery of services. N = number of new enrolled/contracted state providers who meet licensure, standards and/or other

qualifications prior to the delivery of services; D = total number of providers who enroll/contract.

C-5: Home and Community-Based Settings

Explain how residential and non-residential settings in this waiver comply with federal HCB Settings requirements at 42 CFR 441.301(c)(4)-(5) and associated CMS guidance. Include:

1. Description of the settings and how they meet federal HCB Settings requirements, at the time of submission and in the future.
2. Description of the means by which the state Medicaid agency ascertains that all waiver settings meet federal HCB Setting requirements, at the time of this submission and ongoing.

Note instructions at Module 1, Attachment #2, HCBS Settings Waiver Transition Plan for description of settings that do not meet requirements at the time of submission. Do not duplicate that information here.

Please refer to Attachment #2.

Entities and/or individuals that have responsibility for service plan development may provide other direct waiver services to the participant.

The state has established the following safeguards to ensure that service plan development is conducted in the best interests of the participant. *Specify:*

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (3 of 8)

c. Supporting the Participant in Service Plan Development. Specify: (a) the supports and information that are made available to the participant (and/or family or legal representative, as appropriate) to direct and be actively engaged in the service plan development process and (b) the participant's authority to determine who is included in the process.

The person-centered service plan (PCSP) is developed through a person-centered planning process. The Participant and/or the Responsible Party (RP) will lead the person-centered planning process whenever possible. The PCSP is developed by a qualified Medicaid provider. Each participant and/or RP is offered the choice of qualified providers initially and annually thereafter, and may freely change qualified providers upon request throughout the year.

The Participant and/or RP is provided information about available waiver services along with the service provider choice form of available qualified providers. The Participant and/or RP is involved in the service planning and implementation process and may also include other person(s) of their choice in this process. The service plan agreement is signed by the Participant and/or RP.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (4 of 8)

d. Service Plan Development Process. In four pages or less, describe the process that is used to develop the participant-centered service plan, including: (a) who develops the plan, who participates in the process, and the timing of the plan; (b) the types of assessments that are conducted to support the service plan development process, including securing

information about participant needs, preferences and goals, and health status; (c) how the participant is informed of the services that are available under the waiver; (d) how the plan development process ensures that the service plan addresses participant goals, needs (including health care needs), and preferences; (e) how waiver and other services are coordinated; (f) how the plan development process provides for the assignment of responsibilities to implement and monitor the plan; and, (g) how and when the plan is updated, including when the participant's needs change. State laws, regulations, and policies cited that affect the service plan development process are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

Person Centered Service Planning (PCSP) encompasses a comprehensive review of the waiver participant's needs and strengths. The service planning process allows for participation of the waiver participant, the Responsible party (RP), physician, service providers, and case management team. Service planning provides the involved persons with information necessary to make an informed choice regarding the location of care and services to be utilized.

Service planning includes coordination with other agencies who may be involved to ensure all services are considered in the development of the service plan. Completion and implementation of the service plan is a function of the RN care coordinator.

Development of the Service Plan:

The person centered service plan is developed by the RN care coordinator from the assessment information, information obtained from the medical records and/or providers, input from the participant, RP, knowledgeable others, and agencies providing services to the participant.

All other payment sources, should be considered prior to using Medicaid services, including waiver services, in the service plan.

Each service plan should be individualized for a particular participant and completed so that a service professional unfamiliar with the participant can have a clear picture of what is being done for the participant.

Service Plan Components:

There are multiple components identified on the service plan. These components have applicable information which can be identified through the assessment instrument as follows:

1. Medical
2. Skin/Nutrition
3. Activities of Daily Living (ADL)
4. Instrumental Activities of Daily Living (IADL)
5. Psychosocial
6. Caregivers
7. Home Assessment Needs:

In order to develop a plan for intervention, a need must be identified in the assessment. When the service plan is created, all needs identified in the assessment must be included in the service plan. The needs listed on the Service Plan should be those needs with which the staff, and participant or parent/RP are actively working. Each listed need should have corresponding goals and interventions.

When the RN care coordinator identifies services that are needed but unavailable, they should be included in the service plan as a need and identified as an unmet need under the intervention. The service plan must address all areas in which the participant requires at least limited/moderate assistance.

Planned Intervention:

Once a goal has been established, an intervention should be selected to reach the goal.

Service Plan Evaluation:

After the service plan is completed and implemented, it must be evaluated. A formal evaluation by a RN care coordinator includes a review of the previously set goals to determine if they have been met. This review should determine if the stated need is still valid, if the activities to be implemented were carried out, and if the activities to be implemented are still appropriate.

A formal service plan evaluation by RN care coordinator must be completed within at least 364 days from the previous

person centered service plan, or more often, as needed.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (5 of 8)

- e. Risk Assessment and Mitigation.** Specify how potential risks to the participant are assessed during the service plan development process and how strategies to mitigate risk are incorporated into the service plan, subject to participant needs and preferences. In addition, describe how the service plan development process addresses backup plans and the arrangements that are used for backup.

Participants' needs, including potential risks associated with their situations, are assessed and aimed at minimizing risks as addressed in the plan and during the annual plan process by helping an individual/legal guardian/caregiver view ways to be safe and within the choices made. The service plan includes a section for a description of the plan to be implemented during an emergency or natural disaster and a description for how care will be provided in the unexpected absence of a caregiver/supporter.

A standardized assessment tool is used for all waiver participants. This tool assesses the person's current situation, health and safety risk factors, and his/her personal preferences. The plan of service document includes sections that outline the responsibilities of the waiver participant, family, responsible party (RP), and the responsibilities of the RN care coordinator. The qualified provider conducts training with staff annually to review proper reporting procedures for abuse, neglect, exploitation, and unexplained deaths.

Additionally, RN care coordinators will encourage the RP to make back-up plans for emergencies when they take vacations or are away from home for extended periods of time.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (6 of 8)

- f. Informed Choice of Providers.** Describe how participants are assisted in obtaining information about and selecting from among qualified providers of the waiver services in the service plan.

Responsible parties (RPs) are given a list of providers with phone numbers, who serve in the area in which they reside. They are encouraged to phone providers with questions, ask friends or peers about their experiences with providers, research provider websites, and utilize other information resources, including support or advocacy groups in order to select a provider.

Participants/RPs may request a list of providers when service needs change, when a change is requested, or when selection of another provider is needed. The RN Care Coordinator may assist with questions about available providers but is not allowed to choose a provider for the waiver participant or RP.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (7 of 8)

- g. Process for Making Service Plan Subject to the Approval of the Medicaid Agency.** Describe the process by which the service plan is made subject to the approval of the Medicaid agency in accordance with 42 CFR §441.301(b)(1)(i):

The service plans are in the Phoenix data base system. They are subject to review/approval by SCDHHS.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (8 of 8)

- h. Service Plan Review and Update.** The service plan is subject to at least annual periodic review and update to assess the

appropriateness and adequacy of the services as participant needs change. Specify the minimum schedule for the review and update of the service plan:

Every three months or more frequently when necessary

Every six months or more frequently when necessary

Every twelve months or more frequently when necessary

Other schedule

Specify the other schedule:

at least every 364 days from the previous plan date.

i. Maintenance of Service Plan Forms. Written copies or electronic facsimiles of service plans are maintained for a minimum period of 3 years as required by 45 CFR §92.42. Service plans are maintained by the following (*check each that applies*):

a. Service Plan Implementation and Monitoring. Specify: (a) the entity (entities) responsible for monitoring the implementation of the service plan and participant health and welfare; (b) the monitoring and follow-up method(s) that are used; and, (c) the frequency with which monitoring is performed.

RN Care Coordinators monitor the person centered service plan on a monthly basis. This is performed by monthly phone calls and quarterly face to face visits. This monitoring also includes obtaining information about the waiver participant's health and welfare, as well as information about service delivery and appropriateness of interventions.

b. Monitoring Safeguards. *Select one:*

Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may not provide other direct waiver services to the participant.

Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may provide other direct waiver services to the participant.

The state has established the following safeguards to ensure that monitoring is conducted in the best interests of the participant. *Specify:*

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

The State's Phoenix database system links the LOC assessment to the person centered plan of service. This ensures that all identified needs in the LOC assessment are addressed in the person centered service plan.

The Phoenix database system requires service authorizations to indicate the type, amount, duration, scope and frequency of services.

Additionally, the EVV automated monitoring system and mobile application with a GPS tracking system allows for real-time monitoring and verification of the providers delivering services.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

When SCDHHS identifies problems, the provider agency being reviewed is required to submit a plan of correction to address the issues discovered. If additional technical assistance is needed, SCDHHS will assist.

Depending on the findings, remedial actions may include provider training or recoupment of Federal Financial Participation (FFP).

Appendix E: Participant Direction of Services

Applicability *(from Application Section 3, Components of the Waiver Request):*

Yes. This waiver provides participant direction opportunities. Complete the remainder of the Appendix.

No. This waiver does not provide participant direction opportunities. Do not complete the remainder of the Appendix.

CMS urges states to afford all waiver participants the opportunity to direct their services. Participant direction of services includes the participant exercising decision-making authority over workers who provide services, a participant-managed budget or both. CMS will confer the Independence Plus designation when the waiver evidences a strong commitment to participant direction.

Indicate whether Independence Plus designation is requested *(select one):*

Yes. The state requests that this waiver be considered for Independence Plus designation.

No. Independence Plus designation is not requested.

Appendix F: Participant Rights

Appendix F-1: Opportunity to Request a Fair Hearing

The state provides an opportunity to request a Fair Hearing under 42 CFR Part 431, Subpart E to individuals: (a) who are not given the choice of home and community-based services as an alternative to the institutional care specified in Item 1-F of the request; (b) are denied the service(s) of their choice or the provider(s) of their choice; or, (c) whose services are denied, suspended, reduced or terminated. The state provides notice of action as required in 42 CFR §431.210.

Procedures for Offering Opportunity to Request a Fair Hearing. Describe how the individual (or his/her legal representative) is informed of the opportunity to request a fair hearing under 42 CFR Part 431, Subpart E. Specify the notice(s) that are used to offer individuals the opportunity to request a Fair Hearing. State laws, regulations, policies and notices referenced in the description are available to CMS upon request through the operating or Medicaid agency.

Any waiver participant/responsible party (RP) has the right to request an appeal of a decision that adversely affects his/her eligibility status and/or receipt of services. Waiver participants/RPs are informed of this decision in writing when an adverse decision is made. The formal process of review and adjudication of SCDHHS actions/determinations is done under the authority of Section 1-23-310 et. seq., Code of Laws, State of South Carolina, 1976, as amended, and the Department of Health and Human Services regulations Section 126-150, et.seq.

The State provides a written notice with instructions on how to appeal an adverse decision.

The waiver participant/RP must request an appeal within 30 days of the date of the official written notification issued by SCDHHS. Should the waiver participant/RP want to continue services pending the appeal, the RP must submit a request within the first 10 days of the appeal period.

Information regarding the waiver participant/RP's right to appeal and instructions for initiating an appeal are printed on the Adverse Notification form. Also included on this form is the information on requesting continuing services until the outcome of the hearing. In addition, waiver participant/RP may file an appeal electronically at www.scdhhs.gov/appeals.

Once an appeal has been arranged, the appeals examiner will notify the waiver participant/RP of the date, time, and location of the hearing via written notice.

Appendix F: Participant-Rights

Appendix F-2: Additional Dispute Resolution Process

a. Availability of Additional Dispute Resolution Process. Indicate whether the state operates another dispute resolution process that offers participants the opportunity to appeal decisions that adversely affect their services while preserving their right to a Fair Hearing. *Select one:*

No. This Appendix does not apply

Yes. The state operates an additional dispute resolution process

b. Description of Additional Dispute Resolution Process. Describe the additional dispute resolution process, including: (a) the state agency that operates the process; (b) the nature of the process (i.e., procedures and timeframes), including the types of disputes addressed through the process; and, (c) how the right to a Medicaid Fair Hearing is preserved when a participant elects to make use of the process: State laws, regulations, and policies referenced in the description are available to CMS upon request through the operating or Medicaid agency.

Appendix F: Participant-Rights

Appendix F-3: State Grievance/Complaint System

a. Operation of Grievance/Complaint System. *Select one:*

No. This Appendix does not apply

Yes. The state operates a grievance/complaint system that affords participants the opportunity to register grievances or complaints concerning the provision of services under this waiver

b. Operational Responsibility. Specify the state agency that is responsible for the operation of the grievance/complaint system:

The State Medicaid agency operates the Complaint/Grievance System.

c. Description of System. Describe the grievance/complaint system, including: (a) the types of grievances/complaints that participants may register; (b) the process and timelines for addressing grievances/complaints; and, (c) the mechanisms that

are used to resolve grievances/complaints. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Complaints are taken at the SCDHHS central office. Waiver participants/responsible parties (RPs) are notified of their right to complain/grieve through a Participants Rights and Responsibilities statement reviewed and signed at the initial visit with the RN Care Coordinator. When a waiver participant/RP elects to file a grievance or make a complaint, the waiver participant/RP is informed that doing so is not a prerequisite or substitute for a Fair Hearing.

Types of complaints include: concerns about providers; reduction or termination of services; unmet needs; allegations of abuse; and/or any other complaint about services received under the waiver or state plan.

The RN Care Coordinator receiving the complaint fills out the complaint section in the Phoenix database system, initiates action to address the complaint and tries to reach resolution. The complaint is sent electronically to the quality assurance (QA) department, provider compliance department, and waiver staff. The complaints will generally be addressed within a month of receipt depending on the research required. Pending actions and complaint data are tracked and compiled by the Phoenix database system.

Actions taken to resolve complaints may include contact with the RP/participant, provider, referrals to supervisors and/or referral to child protective agencies or local law enforcement. In addition to the above, SCDHHS has a mechanism for receiving complaints through an Agency website. These complaints are directed to the correct division for attention and resolution.

Appendix G: Participant Safeguards

Appendix G-1: Response to Critical Events or Incidents

- a. Critical Event or Incident Reporting and Management Process.** Indicate whether the state operates Critical Event or Incident Reporting and Management Process that enables the state to collect information on sentinel events occurring in the waiver program. *Select one:*

Yes. The state operates a Critical Event or Incident Reporting and Management Process (*complete Items b through e*)

No. This Appendix does not apply (*do not complete Items b through e*)

If the state does not operate a Critical Event or Incident Reporting and Management Process, describe the process that the state uses to elicit information on the health and welfare of individuals served through the program.

- b. State Critical Event or Incident Reporting Requirements.** Specify the types of critical events or incidents (including alleged abuse, neglect and exploitation) that the state requires to be reported for review and follow-up action by an appropriate authority, the individuals and/or entities that are required to report such events and incidents and the timelines for reporting. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The South Carolina Child Protection Reform Act as specified in SC Code Ann. 63-7-10 et seq. requires reporting of abuse, neglect and exploitation (ANE) to those state agencies having statutory authority to receive reports and investigate allegations of suspected ANE. These agencies include Child Protective Services - South Carolina Department of Social Services (SCDSS), and local and state law enforcement agencies. These reports can be made by phone or written form. All verbal reports shall subsequently be submitted in writing. These incidents are defined as physical abuse, emotional, mental or psychological abuse, verbal, threatened or sexual abuse, neglect, and physical and financial exploitation. Mandatory reporters have a duty to report if they have information, facts or evidence that would lead a reasonable person to believe that a child has been or is at risk for ANE. Mandated reporters include medical personnel, physicians, nurses, professional staff, employees, and volunteers or contract provider agencies having a legal responsibility under state law to report suspected ANE to state investigative agencies. Mandated reporters must make the report within 24 hours or the next business day after discovery of the ANE.

The less critical events that do not warrant a referral to SCDSS for follow-up services are documented in the narrative and Inbox section of the Phoenix database system.

- c. Participant Training and Education.** Describe how training and/or information is provided to participants (and/or families or legal representatives, as appropriate) concerning protections from abuse, neglect, and exploitation, including how participants (and/or families or legal representatives, as appropriate) can notify appropriate authorities or entities when the participant may have experienced abuse, neglect or exploitation.

Upon waiver enrollment, waiver participants/responsible parties (RPs) are provided written information about reporting ANE of children. The material provided explains what is considered ANE, and waiver participants/RPs are given phone numbers for reporting suspected abuse cases. RN Care Coordinators explain this information to participants/RPs during the initial visit.

- d. Responsibility for Review of and Response to Critical Events or Incidents.** Specify the entity (or entities) that receives reports of critical events or incidents specified in item G-1-a, the methods that are employed to evaluate such reports, and the processes and time-frames for responding to critical events or incidents, including conducting investigations.

When there is reason to believe that a waiver participant has been abused, neglected, or exploited, in the home or other community setting, employees and other mandated reporters have a duty to report according to established procedures and state law. SC DSS is the mandated agency to investigate suspected ANE in these settings. SC DHHS and its contracted provider agencies shall be available to provide information and assistance to SC DSS. Procedures and time frames of 30 days have been established for SC DHHS to assist providers in resolving issues with SC DSS regarding intake referrals and investigations. SC DSS will conduct a complete investigation and contact law enforcement if criminal violations are suspected. If the investigation is substantiated, notification by SC DSS is sent to appropriate agencies for required actions to be taken. The reporting time frame is 24 hours from when the report is taken.

- e. Responsibility for Oversight of Critical Incidents and Events.** Identify the state agency (or agencies) responsible for overseeing the reporting of and response to critical incidents or events that affect waiver participants, how this oversight is conducted, and how frequently.

SCDSS Child Protective Services and local and state law enforcement are responsible for overseeing the reporting of and response to critical incidents on a monthly basis. In addition to investigations by the State Ombudsman, SCDSS, and law enforcement, other agencies have jurisdiction to make inquiries into incidents of abuse, neglect, or exploitation and may conduct their own investigation. These agencies include:

SLED/Child Fatalities Review Office: The Child Fatalities Review Office of the State Law Enforcement Division (SLED) will investigate all deaths involving abuse, physical and sexual trauma as well as suspicious and questionable deaths of children. The State Child Fatalities Review Office will also review the involvement that various agencies may have had with the child prior to death.

Protection and Advocacy for People with Disabilities, Inc.: Protection and Advocacy for People with Disabilities (P&A) has statutory authority to investigate abuse and neglect of people with disabilities.

The RN Care Coordinators will submit a report in the Phoenix database system of any critical events or incidents (e.g., medication errors, serious injuries that require medical intervention and/or result in hospitalization, or abuse/neglect).

SCDHHS provides oversight by reviewing all critical incidents on a monthly basis to determine types of complaints and trends. Phoenix is used to monitor critical incidents. In order to prevent re-occurrences, the State tracks trends and makes reports to investigative agencies.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (1 of 3)

- a. Use of Restraints.** *(Select one): (For waiver actions submitted before March 2014, responses in Appendix G-2-a will display information for both restraints and seclusion. For most waiver actions submitted after March 2014, responses regarding seclusion appear in Appendix G-2-c.)*

The state does not permit or prohibits the use of restraints

Specify the state agency (or agencies) responsible for detecting the unauthorized use of restraints and how this oversight is conducted and its frequency:

SCDHHS does not permit the unauthorized use of restraints or seclusion for waiver participants. The RN care coordinators monitor monthly with waiver participant/responsible party to ensure there is no unauthorized use of restraints or seclusion in the provision of services.

The use of restraints is permitted during the course of the delivery of waiver services. Complete Items G-2-a-i and G-2-a-ii.

- i. Safeguards Concerning the Use of Restraints.** Specify the safeguards that the state has established concerning the use of each type of restraint (i.e., personal restraints, drugs used as restraints, mechanical restraints). State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

- ii. State Oversight Responsibility.** Specify the state agency (or agencies) responsible for overseeing the use of restraints and ensuring that state safeguards concerning their use are followed and how such oversight is conducted and its frequency:

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (2 of 3)

b. Use of Restrictive Interventions. *(Select one):*

The state does not permit or prohibits the use of restrictive interventions

Specify the state agency (or agencies) responsible for detecting the unauthorized use of restrictive interventions and how this oversight is conducted and its frequency:

SCDHHS is responsible for oversight of the RN care coordinators, who monitor the person centered service plan, which includes asking the participant/responsible party about the unauthorized use of restrictive interventions.

The use of restrictive interventions is permitted during the course of the delivery of waiver services Complete Items G-2-b-i and G-2-b-ii.

i. Safeguards Concerning the Use of Restrictive Interventions. Specify the safeguards that the state has in effect concerning the use of interventions that restrict participant movement, participant access to other individuals, locations or activities, restrict participant rights or employ aversive methods (not including restraints or seclusion) to modify behavior. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency.

ii. State Oversight Responsibility. Specify the state agency (or agencies) responsible for monitoring and overseeing the use of restrictive interventions and how this oversight is conducted and its frequency:

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (3 of 3)

c. Use of Seclusion. *(Select one): (This section will be blank for waivers submitted before Appendix G-2-c was added to WMS in March 2014, and responses for seclusion will display in Appendix G-2-a combined with information on restraints.)*

The state does not permit or prohibits the use of seclusion

Specify the state agency (or agencies) responsible for detecting the unauthorized use of seclusion and how this oversight is conducted and its frequency:

SCDHHS does not permit the unauthorized use of seclusion for waiver participants. The RN care coordinators monitor monthly with waiver participant/responsible party to ensure there is no unauthorized use of seclusion in the provision of services.

The use of seclusion is permitted during the course of the delivery of waiver services. Complete Items G-2-c-i and G-2-c-ii.

i. Safeguards Concerning the Use of Seclusion. Specify the safeguards that the state has established

concerning the use of each type of seclusion. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

- ii. State Oversight Responsibility.** Specify the state agency (or agencies) responsible for overseeing the use of seclusion and ensuring that state safeguards concerning their use are followed and how such oversight is conducted and its frequency:

Appendix G: Participant Safeguards

Appendix G-3: Medication Management and Administration (1 of 2)

This Appendix must be completed when waiver services are furnished to participants who are served in licensed or unlicensed living arrangements where a provider has round-the-clock responsibility for the health and welfare of residents. The Appendix does not need to be completed when waiver participants are served exclusively in their own personal residences or in the home of a family member.

- a. Applicability.** Select one:

No. This Appendix is not applicable (*do not complete the remaining items*)

Yes. This Appendix applies (*complete the remaining items*)

- b. Medication Management and Follow-Up**

- i. Responsibility.** Specify the entity (or entities) that have ongoing responsibility for monitoring participant medication regimens, the methods for conducting monitoring, and the frequency of monitoring.

- ii. Methods of State Oversight and Follow-Up.** Describe: (a) the method(s) that the state uses to ensure that participant medications are managed appropriately, including: (a) the identification of potentially harmful practices (e.g., the concurrent use of contraindicated medications); (b) the method(s) for following up on potentially harmful practices; and, (c) the state agency (or agencies) that is responsible for follow-up and oversight.

- c. Medication Administration by Waiver Providers**

Answers provided in G-3-a indicate you do not need to complete this section

- i. Provider Administration of Medications.** *Select one:*

Not applicable. (*do not complete the remaining items*)

Waiver providers are responsible for the administration of medications to waiver participants who cannot self-administer and/or have responsibility to oversee participant self-administration of medications. *(complete the remaining items)*

ii. State Policy. Summarize the state policies that apply to the administration of medications by waiver providers or waiver provider responsibilities when participants self-administer medications, including (if applicable) policies concerning medication administration by non-medical waiver provider personnel. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

iii. Medication Error Reporting. *Select one of the following:*

Providers that are responsible for medication administration are required to both record and report medication errors to a state agency (or agencies).

Complete the following three items:

(a) Specify state agency (or agencies) to which errors are reported:

(b) Specify the types of medication errors that providers are required to *record*:

(c) Specify the types of medication errors that providers must *report* to the state:

Providers responsible for medication administration are required to record medication errors but make information about medication errors available only when requested by the state.

Specify the types of medication errors that providers are required to record:

iv. State Oversight Responsibility. Specify the state agency (or agencies) responsible for monitoring the performance of waiver providers in the administration of medications to waiver participants and how monitoring is performed and its frequency.

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Health and Welfare

The state demonstrates it has designed and implemented an effective system for assuring waiver participant health and welfare. (For waiver actions submitted before June 1, 2014, this assurance read "The State, on an ongoing basis, identifies, addresses, and seeks to prevent the occurrence of abuse, neglect and exploitation.")

i. Sub-Assurances:

a. Sub-assurance: The state demonstrates on an ongoing basis that it identifies, addresses and seeks to prevent instances of abuse, neglect, exploitation and unexplained death. (Performance measures in this sub-assurance include all Appendix G performance measures for waiver actions submitted before June 1, 2014.)

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

Number and percent of participants/authorized representatives who received information on how to report abuse, neglect, exploitation and other reportable incidents. N: The number of participants/authorized representatives who received information on how to report abuse, neglect, exploitation and other reportable incidents. D: The number of participants.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

As abuse, neglect, and exploitation are identified, action is taken to protect the health and welfare of the waiver participant. The documentation regarding the ANE complaints is reviewed by SCDHHS. When appropriate action is taken by the appropriate parties (SCDSS, SLED, P&A, local law enforcement) and reported to SCDHHS, SCDHHS closes the ANE complaint in the Phoenix database system.

Yes

Please provide a detailed strategy for assuring Health and Welfare, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix H: Quality Improvement Strategy (1 of 3)

Under §1915(c) of the Social Security Act and 42 CFR §441.302, the approval of an HCBS waiver requires that CMS determine that the state has made satisfactory assurances concerning the protection of participant health and welfare, financial accountability

and other elements of waiver operations. Renewal of an existing waiver is contingent upon review by CMS and a finding by CMS that the assurances have been met. By completing the HCBS waiver application, the state specifies how it has designed the waiver's critical processes, structures and operational features in order to meet these assurances.

- Quality Improvement is a critical operational feature that an organization employs to continually determine whether it operates in accordance with the approved design of its program, meets statutory and regulatory assurances and requirements, achieves desired outcomes, and identifies opportunities for improvement.

CMS recognizes that a state's waiver Quality Improvement Strategy may vary depending on the nature of the waiver target population, the services offered, and the waiver's relationship to other public programs, and will extend beyond regulatory requirements. However, for the purpose of this application, the state is expected to have, at the minimum, systems in place to measure and improve its own performance in meeting six specific waiver assurances and requirements.

It may be more efficient and effective for a Quality Improvement Strategy to span multiple waivers and other long-term care services. CMS recognizes the value of this approach and will ask the state to identify other waiver programs and long-term care services that are addressed in the Quality Improvement Strategy.

Quality Improvement Strategy: Minimum Components

The Quality Improvement Strategy that will be in effect during the period of the approved waiver is described throughout the waiver in the appendices corresponding to the statutory assurances and sub-assurances. Other documents cited must be available to CMS upon request through the Medicaid agency or the operating agency (if appropriate).

In the QIS discovery and remediation sections throughout the application (located in Appendices A, B, C, D, G, and I) , a state spells out:

- The evidence based discovery activities that will be conducted for each of the six major waiver assurances; and
- The *remediation* activities followed to correct individual problems identified in the implementation of each of the assurances.

In Appendix H of the application, a state describes (1) the *system improvement* activities followed in response to aggregated, analyzed discovery and remediation information collected on each of the assurances; (2) the correspondent *roles/responsibilities* of those conducting assessing and prioritizing improving system corrections and improvements; and (3) the processes the state will follow to continuously *assess the effectiveness of the OIS* and revise it as necessary and appropriate.

If the state's Quality Improvement Strategy is not fully developed at the time the waiver application is submitted, the state may provide a work plan to fully develop its Quality Improvement Strategy, including the specific tasks the state plans to undertake during the period the waiver is in effect, the major milestones associated with these tasks, and the entity (or entities) responsible for the completion of these tasks.

When the Quality Improvement Strategy spans more than one waiver and/or other types of long-term care services under the Medicaid state plan, specify the control numbers for the other waiver programs and/or identify the other long-term services that are addressed in the Quality Improvement Strategy. In instances when the QIS spans more than one waiver, the state must be able to stratify information that is related to each approved waiver program. Unless the state has requested and received approval from CMS for the consolidation of multiple waivers for the purpose of reporting, then the state must stratify information that is related to each approved waiver program, i.e., employ a representative sample for each waiver.

Appendix H: Quality Improvement Strategy (2 of 3)

H-1: Systems Improvement

a. System Improvements

- i. Describe the process(es) for trending, prioritizing, and implementing system improvements (i.e., design changes) prompted as a result of an analysis of discovery and remediation information.

The Phoenix database system can produce data associated with the outcomes tied to specified performance measures such as non-face to face RN care coordinator monthly contacts, face to face quarterly RN care coordinator contacts, timely initial and re-evaluations for Level of Care determinations, timely service plan development, provider or participant complaints, reports of ANE/critical incidents and narratives for RN care coordinators. Reports can be generated regionally, statewide, by individual RN care coordinators or agency. Data can be trended by specified performance measures. This process allows a thorough assessment of areas needing improvement and areas of best practice.

Prioritizing and implementing system improvements is based on the severity of identified problem(s) and the frequency of duplicated errors. Compliance that falls below 100%, (waiver assurance or otherwise) and issues that present as a statewide problem instead of a localized staffing concern, are addressed as priority. Systems Improvement may involve the following: 1) targeted staff training; 2) Revisions to the training program; 3) Revision of policy and procedure for clarification; and 4) Modifications to expand/improve the Phoenix data system.

b. System Design Changes

- i. Describe the process for monitoring and analyzing the effectiveness of system design changes. Include a description of the various roles and responsibilities involved in the processes for monitoring & assessing system design changes. If applicable, include the state's targeted standards for systems improvement.

The following process is used for monitoring and analyzing system design and data: various information may be submitted on the Phoenix database system in order to generate reports from or about RN care coordinators, other waiver service providers, waiver participant Level of Care status, waiver participant service plan development status, RN care coordinator narratives and/or contacts, or ANE/critical incident or complaint reports. Caregivers/responsible parties may also call SCDHHS to submit complaints about their RN care coordinator provider. This information is researched by the waiver administrator, logged into Phoenix and tracked for resolution.

Data is gathered and compiled from the following data sources: the Phoenix data base system; Provider Compliance Reviews conducted by SCDHHS staff at least every 18 months; participant/responsible party appeals and dispositions; quality assurance evidentiary reviews conducted by SCDHHS staff; and quarterly meetings/trainings with RN care coordination staff conducted by the Waiver Administrator.

- ii. Describe the process to periodically evaluate, as appropriate, the Quality Improvement Strategy.

Annually, the Medicaid Agency and CSO will review trended data to evaluate the overall quality improvement strategy. There is also the capability to report problems in the Phoenix data base system that allows issues discovered by users to be submitted to the Phoenix helpdesk for consideration or correction. This allows on-going quality improvement within the Phoenix data system.

Appendix I: Financial Accountability

I-1: Financial Integrity and Accountability

Financial Integrity. Describe the methods that are employed to ensure the integrity of payments that have been made for waiver services, including: (a) requirements concerning the independent audit of provider agencies; (b) the financial audit program that the state conducts to ensure the integrity of provider billings for Medicaid payment of waiver services, including the methods, scope and frequency of audits; and, (c) the agency (or agencies) responsible for conducting the financial audit program. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The State employs the following methods to ensure the integrity of payments made for waiver services:

The state uses an Electronic Visit Verification (EVV) system that is a front line auditing tool ensuring the integrity of the payments for services. This system links authorized service amounts to claim billing to ensure that over-billing for services is prevented. The system is also used to generate various reports used to do more in depth auditing on issues related to where services were performed, the time and duration of the service, whether or not a waiver participant received an authorized service, etc. CMS has indicated that this tool is a best practice for states to utilize in waiver management.

The Division of Program Integrity at SCDHHS responds to complaints and allegations of inappropriate or excessive billings by Medicaid providers, and also collects and analyzes provider data in order to identify billing exceptions and deviations. In this capacity, Program Integrity may audit payments to waiver service providers. The Division of Program Integrity carries out SCDHHS responsibilities concerning suspected Medicaid fraud as required by 42 CFR Part 455, Subpart A.

Program Integrity must conduct a preliminary investigation and cooperate with the state and federal authorities in the referral, investigation, and prosecution of suspected fraud in the Medicaid program. SCDHHS refers suspected cases of Medicaid fraud by health care providers to the Medicaid Fraud Control Unit of the State Attorney General's Office for investigation and possible prosecution. In addition, the Division of Audits reviews SCDHHS contracts with external entities in order to ensure that contract terms are met and only allowable costs are charged.

The State does not require providers to secure an independent audit of their financial statements. SCDHHS staff review Phoenix reports such as Activities Task Sheets, Missed Visit Reports, Provider Activity Reports, Unauthorized Location and Unauthorized Phone Number Reports and compares them to provider's documentation of service delivery to ensure financial integrity. These Phoenix/EVV reports are reviewed to verify the following: 1) services being provided are identified on the participant's service plan; 2) activities being performed by the service provider; and 3) if the service is being provided in the participant's home. RN Care Coordinators generally review the participant records at least once a quarter to compare service authorizations against paid claims to ensure providers are not inappropriately reimbursed. Other SCDHHS staff, including Program Integrity, may also conduct reviews. These reviews are generally performed as desk reviews but could also be conducted as site reviews depending upon circumstances. A Program Integrity review may occur based on a complaint or Medicaid fraud, waste or abuse, or as the result of a referral from the Program Area. Generally, Program Integrity reviews identify the following information: NPI, background checks, MMIS provider enrollment information, review of provider contracts, detailed claims report, review of program policies, and conducts the review of participant and/or provider records against the period of review for the selected sample of participants. The same process applies regardless of provider type. The State requires a corrective action plan from providers if there are warranted findings. Providers receive a follow-up letter communicating the final results. The State Auditor's Office conducts audits of SCDHHS' programs.

If a corrective action plan is issued against a provider, depending on the sanction, the State will either conduct a site visit after 90 days to ensure that the corrective action plan was implemented or require the provider to submit documentation that was unavailable at the time of the site visit.

The RN Care Coordinators review each participant's case prior to his/her quarterly review date to ensure all authorizations are appropriate and reimbursed correctly.

Program Integrity reviews are generally independent of Program Area reviews. They accept referrals based on complaints or findings from the Program Area. Their sample sizes and methodology are not shared with the Program Area. They make both announced and unannounced visits to conduct reviews; their schedules are not shared with the Program Area and their findings are independent. The number of provider reviews conducted annually depend on a variety of factors. SCDHHS could be acting on a complaint or internally looking for specific findings such as billing irregularities, patterns of poor monitoring, undocumented waiver services, excessive waiver services or waiver services billed during inpatient admissions. Sample sizes may vary depending on suspected findings, staff capacity, resources and other ongoing projects such as Renewals, Amendments, Evidentiary Reports or CMS RAI or IRAI inquiries.

Appendix I: Financial Accountability

Quality Improvement: Financial Accountability

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Financial Accountability Assurance:

The State must demonstrate that it has designed and implemented an adequate system for ensuring financial accountability of the waiver program. (For waiver actions submitted before June 1, 2014, this assurance read "State financial oversight exists to assure that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver.")

i. Sub-Assurances:

a. Sub-assurance: The State provides evidence that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver and only for services rendered.

(Performance measures in this sub-assurance include all Appendix I performance measures for waiver actions submitted before June 1, 2014.)

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

The EVV System is where providers use a toll-free number and/or free mobile application to document service delivery (i.e., respite, nursing, RN care coordination and pediatric medical day care services). The claim is recorded and compared against service authorizations on file. Claims must meet all criteria to be submitted to Medicaid Management Information System (MMIS) for payment, in which the billing code determines the rate of reimbursement. The state's MMIS ensures that claims submitted via EVV/Mobile application are for current waiver participants, that the service is paid at the appropriate rate and that the waiver participant is Medicaid eligible.

The Phoenix database system automatically ties the needs identified in the assessment to the service plan. This ensures that any services billed for a waiver participant are identified as a need on the assessment.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

Aggregated data is used to identify training needs and areas requiring policy clarification/amendments. Any errors identified by staff are corrected and claims are reprocessed appropriately. Provider trainings are done on an as needed basis. SCDHHS staff training is also done on a periodic basis to ensure the latest policy updates are reviewed.

I-2: Rates, Billing and Claims (1 of 3)

a. Rate Determination Methods. In two pages or less, describe the methods that are employed to establish provider payment rates for waiver services and the entity or entities that are responsible for rate determination. Indicate any opportunity for public comment in the process. If different methods are employed for various types of services, the description may group services for which the same method is employed. State laws, regulations, and policies referenced in the description are available upon request to CMS through the Medicaid agency or the operating agency (if applicable).

The SCDHHS Department of Reimbursement Methodology and Policy, with the assistance of the Office of Health Programs, is responsible for the development of waiver service payment rates. SCDHHS allows the public to offer comments on waiver rate changes and rate setting methodology either through the Medical Care Advisory Committee (MCAC) meetings, public notices or through meetings with provider association representatives.

RN Care Coordination services are provided by registered nurses with pediatric experience. The rates for this service were established to be comparable to registered nurse service rates in other SCDHHS programs. Specifically, these rates were developed to align these payment rates with RN services provided to children with high levels of need that are available under the State Plan. The impact of statewide rate increases for nursing services (effective 1-1-20 and 7-1-20) on PMDC rates was considered in comparison to the existing PMDC provider nursing staff salaries.

Respite rates for RN and LPN services were established to ensure comparability with RN and LPN services (non-enhanced) that are available under the State Plan, specifically, home-based private duty nursing services. Unskilled respite rates were developed to be consistent with personal care service rates in other waivers.

The Pediatric Medical Day Care rate was developed using a market-based pricing approach. This methodology incorporated a cost-based assessment of existing provider staffing and operating costs. Allowable cost components were identified to reflect costs that are reasonable, necessary, and related to the delivery of the service. Market-based research was performed to inform the development of the assumptions for various cost components. This included input from the current PMDC provider on billable hours, estimated net patient revenue, salary costs, total operating expenses and the hourly reimbursement needed for break-even. Based on inputs from the cost-based assessment from the PMDC provider and actuarial calculations using market-based research, low and high rate scenarios were developed. From this, a mid-point range was calculated which reflects the new rate for PMDC. The unit rate for the PMDC service is established in a three-year service contract. Re-evaluation of the cost assessments and established rates occurs upon renewal, extension or amendment of the service contract.

Changes in rate determination methods and rate changes are primarily communicated through the quarterly MCAC (Medical Care Advisory Committee) meetings on an as needed basis as well as monthly IHS conference calls. Further, waiver renewals, amendments, and rate updates are communicated to the public through public notices and subsequent public meetings and webinars. Comments are solicited through these communications. For clarification, the rate for RN Care Coordination services was based on a cost build up model driven by RN salaries projected to be experienced in pediatric care. The compensation statistics used were from SC Office of Human Resources (for state employees) but modified for a percentage of 10% to allow for private sector differential. These rates are not used in any other SC Medicaid program. The rates for RN and LPN Services are the same as those provided under the State Plan.

- b. Flow of Billings.** Describe the flow of billings for waiver services, specifying whether provider billings flow directly from providers to the state's claims payment system or whether billings are routed through other intermediary entities. If billings flow through other intermediary entities, specify the entities:

Provider billings flow directly from providers to the States claim payment system. For all waiver services, the provider uses the EVV/Mobile application systems to document delivery of services.

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (2 of 3)

- c. Certifying Public Expenditures (select one):**

No. state or local government agencies do not certify expenditures for waiver services.

Yes. state or local government agencies directly expend funds for part or all of the cost of waiver services and certify their state government expenditures (CPE) in lieu of billing that amount to Medicaid.

Select at least one:

Certified Public Expenditures (CPE) of State Public Agencies.

Specify: (a) the state government agency or agencies that certify public expenditures for waiver services; (b) how it is assured that the CPE is based on the total computable costs for waiver services; and, (c) how the state verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). (Indicate source of revenue for CPEs in Item I-4-a.)

Certified Public Expenditures (CPE) of Local Government Agencies.

Specify: (a) the local government agencies that incur certified public expenditures for waiver services; (b) how it is assured that the CPE is based on total computable costs for waiver services; and, (c) how the state verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). (Indicate source of revenue for CPEs in Item I-4-b.)

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (3 of 3)

- d. Billing Validation Process.*** Describe the process for validating provider billings to produce the claim for federal financial participation, including the mechanism(s) to assure that all claims for payment are made only: (a) when the individual was eligible for Medicaid waiver payment on the date of service; (b) when the service was included in the participant's approved service plan; and, (c) the services were provided:

The State now processes all Medically Complex Children Waiver services through the EVV/Mobile application systems. For all claims submitted through these systems, a pre-payment review is conducted. EVV/Mobile application only submits claims to MMIS for services that were prior-authorized by the RN care coordinator and are included in the participant's service plan. EVV compares services documented by providers to the amount, frequency, and duration prior-authorized by the RN care coordinator. The claim will submit to MMIS for payment up to the authorized amount in the service plan.

Once the claim is submitted to MMIS, payment is made to the provider only if the participant was Medicaid eligible on the date of service and MMIS shows the participant is enrolled in the waiver program. This is the case for all claims, regardless of whether they are submitted through the EVV system.

The Division of Program Integrity conducts post-payment reviews. They review sample claims and determine if services have been billed as authorized.

- e. Billing and Claims Record Maintenance Requirement.*** Records documenting the audit trail of adjudicated claims (including supporting documentation) are maintained by the Medicaid agency, the operating agency (if applicable), and providers of waiver services for a minimum period of 3 years as required in 45 CFR §92.42.

Appendix I: Financial Accountability

I-3: Payment (1 of 7)

- a. Method of payments -- MMIS (select one):***

Payments for all waiver services are made through an approved Medicaid Management Information System (MMIS).

Payments for some, but not all, waiver services are made through an approved MMIS.

Specify: (a) the waiver services that are not paid through an approved MMIS; (b) the process for making such payments and the entity that processes payments; (c) and how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

Payments for waiver services are not made through an approved MMIS.

Specify: (a) the process by which payments are made and the entity that processes payments; (b) how and through which system(s) the payments are processed; (c) how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

Payments for waiver services are made by a managed care entity or entities. The managed care entity is paid a monthly capitated payment per eligible enrollee through an approved MMIS.

Describe how payments are made to the managed care entity or entities:

Appendix I: Financial Accountability

I-3: Payment (2 of 7)

b. Direct payment. *In addition to providing that the Medicaid agency makes payments directly to providers of waiver services, payments for waiver services are made utilizing one or more of the following arrangements (select at least one):*

The Medicaid agency makes payments directly and does not use a fiscal agent (comprehensive or limited) or a managed care entity or entities.

The Medicaid agency pays providers through the same fiscal agent used for the rest of the Medicaid program.

The Medicaid agency pays providers of some or all waiver services through the use of a limited fiscal agent.

Specify the limited fiscal agent, the waiver services for which the limited fiscal agent makes payment, the functions that the limited fiscal agent performs in paying waiver claims, and the methods by which the Medicaid agency oversees the operations of the limited fiscal agent:

Providers are paid by a managed care entity or entities for services that are included in the state's contract with the entity.

Specify how providers are paid for the services (if any) not included in the state's contract with managed care entities.

Appendix I: Financial Accountability**I-3: Payment (3 of 7)**

c. Supplemental or Enhanced Payments. Section 1902(a)(30) requires that payments for services be consistent with efficiency, economy, and quality of care. Section 1903(a)(1) provides for Federal financial participation to states for expenditures for services under an approved state plan/waiver. Specify whether supplemental or enhanced payments are made. Select one:

No. The state does not make supplemental or enhanced payments for waiver services.

Yes. The state makes supplemental or enhanced payments for waiver services.

Describe: (a) the nature of the supplemental or enhanced payments that are made and the waiver services for which these payments are made; (b) the types of providers to which such payments are made; (c) the source of the non-Federal share of the supplemental or enhanced payment; and, (d) whether providers eligible to receive the supplemental or enhanced payment retain 100% of the total computable expenditure claimed by the state to CMS. Upon request, the state will furnish CMS with detailed information about the total amount of supplemental or enhanced payments to each provider type in the waiver.

Appendix I: Financial Accountability**I-3: Payment (4 of 7)**

d. Payments to state or Local Government Providers. Specify whether state or local government providers receive payment for the provision of waiver services.

No. State or local government providers do not receive payment for waiver services. Do not complete Item I-3-e.

Yes. State or local government providers receive payment for waiver services. Complete Item I-3-e.

Specify the types of state or local government providers that receive payment for waiver services and the services that the state or local government providers furnish:

Appendix I: Financial Accountability**I-3: Payment (5 of 7)**

e. Amount of Payment to State or Local Government Providers.

Specify whether any state or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed its reasonable costs of providing waiver services and, if so, whether and how the state recoups the excess and returns the Federal share of the excess to CMS on the quarterly expenditure report. Select one:

Answers provided in Appendix I-3-d indicate that you do not need to complete this section.

The amount paid to state or local government providers is the same as the amount paid to private providers of the same service.

The amount paid to state or local government providers differs from the amount paid to private providers of

the same service. No public provider receives payments that in the aggregate exceed its reasonable costs of providing waiver services.

The amount paid to state or local government providers differs from the amount paid to private providers of the same service. When a state or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed the cost of waiver services, the state recoups the excess and returns the federal share of the excess to CMS on the quarterly expenditure report.

Describe the recoupment process:

Appendix I: Financial Accountability

I-3: Payment (6 of 7)

f. Provider Retention of Payments. Section 1903(a)(1) provides that Federal matching funds are only available for expenditures made by states for services under the approved waiver. Select one:

Providers receive and retain 100 percent of the amount claimed to CMS for waiver services.

Providers are paid by a managed care entity (or entities) that is paid a monthly capitated payment.

Specify whether the monthly capitated payment to managed care entities is reduced or returned in part to the state.

g. Additional Payment Arrangements

i. Voluntary Reassignment of Payments to a Governmental Agency. Select one:

No. The state does not provide that providers may voluntarily reassign their right to direct payments to a governmental agency.

Yes. Providers may voluntarily reassign their right to direct payments to a governmental agency as provided in 42 CFR §447.10(e).

Specify the governmental agency (or agencies) to which reassignment may be made.

ii. Organized Health Care Delivery System. Select one:

No. The state does not employ Organized Health Care Delivery System (OHCDS) arrangements under the provisions of 42 CFR §447.10.

Yes. The waiver provides for the use of Organized Health Care Delivery System arrangements under the provisions of 42 CFR §447.10.

Specify the following: (a) the entities that are designated as an OHCDS and how these entities qualify for designation as an OHCDS; (b) the procedures for direct provider enrollment when a provider does not voluntarily agree to contract with a designated OHCDS; (c) the method(s) for assuring that participants have free choice of qualified providers when an OHCDS arrangement is employed, including the selection of providers not affiliated with the OHCDS; (d) the method(s) for assuring that providers that furnish services under contract with an OHCDS meet applicable provider qualifications under the waiver; (e) how it is assured that OHCDS contracts with providers meet applicable requirements; and, (f) how financial accountability is assured when an OHCDS arrangement is used:

iii. Contracts with MCOs, PIHPs or PAHPs.

The state does not contract with MCOs, PIHPs or PAHPs for the provision of waiver services.

The state contracts with a Managed Care Organization(s) (MCOs) and/or prepaid inpatient health plan(s) (PIHP) or prepaid ambulatory health plan(s) (PAHP) under the provisions of §1915(a)(1) of the Act for the delivery of waiver and other services. Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the state Medicaid agency.

Describe: (a) the MCOs and/or health plans that furnish services under the provisions of §1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.

This waiver is a part of a concurrent §1915(b)/§1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The §1915(b) waiver specifies the types of health plans that are used and how payments to these plans are made.

This waiver is a part of a concurrent ?1115/?1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The ?1115 waiver specifies the types of health plans that are used and how payments to these plans are made.

If the state uses more than one of the above contract authorities for the delivery of waiver services, please select this option.

In the textbox below, indicate the contract authorities. In addition, if the state contracts with MCOs, PIHPs, or PAHPs under the provisions of §1915(a)(1) of the Act to furnish waiver services: Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the state Medicaid agency. Describe: (a) the MCOs and/or health plans that furnish services under the provisions of §1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.

I-4: Non-Federal Matching Funds (1 of 3)

a. State Level Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the state source or sources of the

non-federal share of computable waiver costs. Select at least one:

Appropriation of State Tax Revenues to the State Medicaid agency

Appropriation of State Tax Revenues to a State Agency other than the Medicaid Agency.

If the source of the non-federal share is appropriations to another state agency (or agencies), specify: (a) the state entity or agency receiving appropriated funds and (b) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if the funds are directly expended by state agencies as CPEs, as indicated in Item I-2-c:

Other State Level Source(s) of Funds.

Specify: (a) the source and nature of funds; (b) the entity or agency that receives the funds; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by state agencies as CPEs, as indicated in Item I-2-c:

I-6: Payment for Rent and Food Expenses of an Unrelated Live-In Caregiver

Reimbursement for the Rent and Food Expenses of an Unrelated Live-In Personal Caregiver. Select one:

No. The state does not reimburse for the rent and food expenses of an unrelated live-in personal caregiver who resides in the same household as the participant.

Yes. Per 42 CFR §441.310(a)(2)(ii), the state will claim FFP for the additional costs of rent and food that can be reasonably attributed to an unrelated live-in personal caregiver who resides in the same household as the waiver participant. The state describes its coverage of live-in caregiver in Appendix C-3 and the costs attributable to rent and food for the live-in caregiver are reflected separately in the computation of factor D (cost of waiver services) in Appendix J. FFP for rent and food for a live-in caregiver will not be claimed when

the participant lives in the caregiver's home or in a residence that is owned or leased by the provider of Medicaid services.

The following is an explanation of: (a) the method used to apportion the additional costs of rent and food attributable to the unrelated live-in personal caregiver that are incurred by the individual served on the waiver and (b) the method used to reimburse these costs:

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (1 of 5)

a. Co-Payment Requirements. *Specify whether the state imposes a co-payment or similar charge upon waiver participants for waiver services. These charges are calculated per service and have the effect of reducing the total computable claim for federal financial participation. Select one:*

No. The state does not impose a co-payment or similar charge upon participants for waiver services.

Yes. The state imposes a co-payment or similar charge upon participants for one or more waiver services.

i. Co-Pay Arrangement.

Specify the types of co-pay arrangements that are imposed on waiver participants (check each that applies):

c. Derivation of Estimates for Each Factor. Provide a narrative description for the derivation of the estimates of the following factors.

i. Factor D Derivation. The estimates of Factor D for each waiver year are located in Item J-2-d. The basis and methodology for these estimates is as follows:

The state used internal reports for the recent 372 document to provide projections for users, utilization and units. Rates are based upon existing rates with an annual 3% inflation factor for each year of the waiver after Year 1. The Waiver Year 5 rate for Pediatric Medical Day Care reflects the recent SCDHHS rate increase. The Rate Determination Method applied is noted in Appendix I-2-a.

ii. Factor D' Derivation. The estimates of Factor D' for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Internal reports for the recent 372 document were used to provide average annual estimates of participants receiving acute care services. These estimates are based upon existing expenditures with an annual 3% inflation factor for each year of the waiver after Year 1.

iii. Factor G Derivation. The estimates of Factor G for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Internal reports for medically complex children with hospitalizations were used to determine the factor G estimates. An annual 3% inflation factor was added to each year after year one.

iv. Factor G' Derivation. The estimates of Factor G' for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Internal reporting for factor G' estimates are based on acute care costs for medically complex children with hospitalizations. An annual 3% inflation factor for each year of the waiver after Year 1 was added.
