SUBJECT: SCDOT Statewide Needs Survey

Access to transportation is a top priority for people with disabilities to live, work, and participate in their local community. The South Carolina Department of Transportation (SCDOT) is the state agency responsible for improving transportation in our state. Recognizing the importance of transportation for those with disabilities, we encourage providers and individuals/families to provide input in this survey. Not all sections of the survey will be relevant. Providing input will offer critical awareness to SCDOT regarding transportation needs ensuring that individuals with disabilities have equal opportunities to access transportation to enrich their lives in the areas of access to work, community involvement and maintaining personal relationships. Thank you.
